STINGRAYBOATS.COM

INTERACTIVE WEB SITE

2

Stingray's web site has become the talk of industry circles. That's because we have perhaps the most comprehensive web site in the industry. Beyond a few pictures and specifications, the Stingray web site will immerse you in an interactive experience that will enable you to find most everything you need before you even step foot into a dealer showroom. From the privacy of your home, you can:

Visit Your Dealer's Showroom Anytime

Using your zip code, locate your nearest Stingray dealer and view their complete inventory to see if the boat you want is in stock at their dealership. From an inventory listing, you can view boats in stock and on order. Once you select a boat, the MSRP Window Sticker will be displayed, allowing you to calculate a monthly payment and request a quote from the dealer.

Obtain Pricing Online

If your local Stingray dealer does not have the boat that you are looking for, build your own using our online Build Boat with Pricing feature. Just enter your zip code, select a dealer, choose the model you're interested in, and pick an engine and any desired options. We will calculate the manufacturer's suggested retail price and display a window sticker. From there, you can use our payment calculator to estimate a monthly payment and request a quote from the dealer you selected.

Get Help Choosing a Model

If you need a little help deciding which model is best for you, we have several features to assist you in your decision.

Articles and Reviews

Our virtual library of third party articles and reviews is packed full of boat tests and reviews that cover almost an entire decade!

Performance Comparisons

For a head-to-head comparison against another boat that you may be considering, our Performance Comparisons compile the results from thousands of independent test reports into a single database. Here you can select from almost any boat manufacturer to see how they compare to Stingray when it comes to speed and fuel economy. Performance Bulletins, boat and engine tests from engine manufacturers, are available for viewing and downloading.

Owner Stories

To hear what other Stingray owners have to say about their boats, visit Stingray Stories and read our owner testimonials.

Stingray boat owners are in a class of their own when it comes to Internet technology. That's because every Stingray owner has their very own customizable web page where they can access information about their boat, communicate with other Stingray owners, receive personalized answers to their technical questions, and even update their online photo album at any time!

MyStingray.com is designed to provide you with personalized information about your boat, keep you apprised of the latest developments at Stingray, and offer you a communication portal where you can contact Stingray and make friends with other owners.

Access requires a username and password. The first time you visit, you will be asked to complete a simple form that includes entering your name, address, boat serial number, and a password. Once signed up, you will have access to:

My Boat Photos

Share your favorite boating memories with your friends and family. It's easy! Within minutes, you can create a personalized My Stingray photo album with your favorite boating pictures and stories. And, you will have your own web address to share with everyone!

Sample owner photo album.

Stingray Owner Forum

Have a question about your Stingray boat? Looking to find other Stingray owners in your area? Whether you are looking for an answer to a question, want to talk about boating, or find out how you can participate in a Stingray owner get-together, the Stingray owner forum is the place to be. Conversation ranges from simple chatter to in-depth technical discussions.

Frequently Asked Questions

If you have a technical question that you don't wish to post to the public forum, you can submit a question using our online submission form. Questions are answered by our technical staff and posted on your FAQ page for you to read at your leisure.

Online Auction

The Stingray Online Auction is available for buying and selling Stingray parts. The auction site is limited to those affiliated with Stingray and owners of Stingray boats. Owners, dealers, and Stingray may offer items for auction.

Stingray Parts

As a member of My Stingray, you will have access to a parts list specific to your boat. You can complete an online order form, print it, and fax it to your local Stingray dealer. Your parts list, containing a description and picture (most parts), is based on features that were included at the time of manufacture. A separate portion of the list details optional features that are available for ordering.

Manuals and Technical Documents

A library of Stingray manuals, third party vendor manuals, wiring diagrams and other documents are available for viewing and printing.

Performance Calculator

Want to know how your boat should perform given specific variables? Input weight, horsepower, temperature, propeller type, and altitude to calculate the expected performance of your Stingray boat under many varying conditions.

STINGRAY & THE ENVIRONMENT

Being a leader in technology is more than just a philosophy - it's a commitment designed to help ensure the preservation of our natural resources for generations to come. Here are a few things we're doing to help protect our ecosystem.

Fuel Efficiency

The performance and efficiency of our patented Z-plane hull, documented by third party reports, is unmatched. Better fuel efficiency translates into less fuel consumption but more importantly, less carbon dioxide emissions.

Material Waste Reduction / Recycling

Stingray has a recycling program for virtually every waste material including, but not limited to, cardboard, composites, aluminum, pallets, and metal drums. In cardboard alone, Stingray recycles over 163,000 pounds per year.

Committed

We want Stingray owners not only to have fun on the water, but also to know that they are helping to protect the environment at the same time.

Use of Low VOC Gelcoats & Resins

Stingray was the first boat manufacturer to convert to the use of low styrene laminating resins and gelcoats. The combination of these low VOC materials coupled with the latest in low pressure, high temperature spray equipment has reduced Stingray's VOC stack emissions by over 55%.

Environmental Fuel Surge Protectors

Every Stingray boat is equipped with a fuel surge protector, for venting the system through the fuel fill cap. This helps avoid refueling spills normally associated with external fuel vents. This system helps protect our lakes and streams.

ADVANCED TECHNOLOGY IN THE BOATING INDUSTRY

For the past two decades, Stingray has pioneered many of the advances of technology in the boat building industry. Equipment and tools

that were not available just a few years ago are now the mainstays that enable Stingray to achieve unparalleled precision and efficiency.

Computer Aided Design and Manufacturing

Every Stingray begins as a 3-dimensional computer model. We "build" the boat on-screen and carefully scrutinize each component for size and fit making all the necessary adjustments before we ever commit the design to fiberglass. We even use a virtual human to check for legroom and headroom and to be sure all of the controls are located comfortably within reach. The information from this 3-D model is then sent to the next step in the process: 3-D milling.

Multi-Axis 3-D Milling Machine

With information available from the 3-D computer model, the milling machines can produce a full size model in a matter of hours - a task that would take weeks to complete otherwise. With unequalled precision, the running surface of the hull is cut to the exact specifications. Our master craftsmen then provide the mirror finish that is a hallmark of Stingray quality.

Robotic Lamination Facility

Visitors to our plant are always impressed by its cleanliness and unique manufacturing systems. In our lamination building, a custom designed overhead tram system was specially developed just for Stingray. Parts under construction are moved about the plant under computer control. This system keeps track of our in-process fiberglass parts while optimizing mold usage and improving productivity. Process automation also increases worker safety, helps maximize efficiency, and improves quality.

Water Jet Cutting Machines

Many parts on a Stingray are cut using one of our high-pressure water jet machines. A stream of water no thicker than a human hair slices quickly and neatly through a variety of materials much easier than could be done by hand. Materials such as carpet, foam, vinyl, canvas, rubber, and fiberglass are quickly transformed into precision quality parts.

CNC Routers

Computerized numeric controlled routers are used to cut various sheet goods into high quality parts. The computer allows us to "nest" a group of parts efficiently to minimize waste. Because the process is computer controlled, each part is dimensionally identical from one run to the next, and can be finished much faster and more inexpensively than those produced by hand.

WHY BUY STINGRAY?

ABOUT OUR COMPANY

Based in Hartsville, South Carolina, Stingray is one of the most advanced boat building operations in the marine industry. Stingray has over 225,000 square feet of manufacturing facilities, located on 46 acres.

Independently Owned

Stingray is a privately held, family-owned business, representing one of the longest continual ownerships in the marine industry today! Stingray has been building quality runabouts since 1979 based on some very basic principles: innovation, craftsmanship and integrity. Because of our "independent" status, Stingray can react to changing market conditions in a much shorter cycle time than the larger corporate entities. This often leads to early recognition of shifts in consumer trends or demographics and thus designing products to meet those needs in a more proactive way.

A Founding Member of ABA

As one of the founding members of the American Boatbuilders Association (ABAboats.com), Stingray is in excellent company with the likes of Chaparral, Cobalt, Correct Craft, Ebbtide, Formula, Grady-White, Monterey, Pursuit, Regal, Rinker, S2 Yachts, and Triton. This is another assurance that you are receiving the highest quality of material available to the marine industry. ABA members pool their expertise and resources to purchase only the best products and services available.

Environmentally Responsible

Stingray uses 4-cycle engines for power, which can be four to ten times cleaner than 2-cycle outboards, not to mention being more fuel-efficient. Better fuel efficiency translates into less fuel consumption but more importantly, less carbon monoxide emission into the air.

NMMA Certified

As a member of the National Marine Manufacturers Association, you can be assured that your Stingray meets or exceeds well respected industry standards.

Financially Solid

Stingray represents one of the most solid companies in the industry. With Dun and Bradstreet's highest credit rating, Stingray dealers and customers can depend on a strong partner to provide product innovation and customer support for years to come. We are proud of our debt-free status - a claim that few builders can make!

Patented Z-Plane Hull

Stingray's patented Z-Plane hull is up to 30% more efficient than other boat hulls. Our boats run faster, corner better and get remarkably good gas mileage. That means you can enjoy your boat more for less operating cost.

Protection Plan

Stingray backs every model it builds with a five year transferable protection plan. Also included is a limited three year osmosis warranty.

See your dealer for details or visit stingrayboats.com/warranty for the most up-to-date information.

180RX BOWRIDER

LOA: 18' 0"

Weight (w/ 3.0L 135 hp): 2115 lbs.

Beam: 85"

Fuel Capacity: 21 gal.

With a retail price of only \$9,995, our 2004 180RX proves that boating can still be affordable. Designed for the price-conscious boater who wants a reliable, good-performing boat, but doesn't want to pay for all the frills, the 180RX is the answer.

The 180RX rides on our patented Z-Plane hull, which has proven through independent third-party tests to produce better than average performance. It is rated to carry up to seven passengers or 1,070 pounds, so we built in plenty of storage compartments bow to stern, including a massive floor compartment with an oversize door for large items and easy access. All-weather marine grade carpeting is used throughout and the upholstery is premium 32-ounce vinyl with special foam backing for added comfort and resilience.

Twin adjustable bucket seats face the dash, with a full-width aft bench and large sundeck. Additional passengers can lounge in the bow. At the helm you'll find a full range of quality backlit instruments and accessory switches. There's even a 12-volt receptacle to operate your accessories. For added richness the instrument panel features an attractive woodgrain trim.

Powering the 180RX is a fuel-efficient 135 hp Volvo Penta 3.0-liter GL SX sterndrive that propels the boat to maximum speeds in the mid to high 40 mph range depending on the number of passengers and gear.

- 1 The contoured bow features cupholders and grab handles, and a comfortable place for lounging.
- 2 Make use of the spacious sundeck to relax or catch some rays. Don't forget your sunblock!
- 3 Use the in-floor storage area to hold your wakeboard and ropes while under way.
- 4 The helm area features woodgrain panels and attractive, easy-to-read instrumentation.
- 5 The passenger area is equipped with a padded bucket seat, cupholder, and locking glovebox.

185LS/LX BOWRIDER

LOA: 18' 5"

Weight (w/ 3.0L 135hp): 2155 lbs.

Beam: 85"

Fuel Capacity: 21 gallons

Our 185L bowrider is compact and full of features seldom seen in a package this size.

At the helm you will find a full array of backlit instruments, trimmed in rich woodgrain paneling. The dash has a lower rake for better visibility. You'll also find a digital hour meter and a 12-volt receptacle.

On the passenger side is a locking glove box, large drink holder, heavy-duty stainless grab rail, a flat spot to mount electronics and a radio/CD mount recessed beneath the windshield for optimum protection.

In the bow, stainless steel rails, not plastic handles, line the perimeter. Forward of the well-padded lounge seats is an insulated cooler with a non-skid hatch that doubles as a boarding step and conveniently placed cupholders.

The 185L is available in X and S configurations. The X model sports two adjustable buckets with a full-width rear lounge and sundeck. The S version offers a driver's bucket, an adjustable back-to-back lounge and aft jump seats.

- 1 The bow seats are specially contoured to maximize comfort and roominess.
- 2 Relax on the sundeck, or rest against the fully upholstered side panels while underway.
- 3 A spacious glovebox allows room for storing accessories or small clothing items.
- 4 The cockpit features padded seats, woodgrain panel, and attractive instruments.
- 5 The bow features a spacious ice chest and cupholders for passengers.

190LS/LX BOWRIDER

LOA: 19' 0"

Weight (w/ 3.0L 135hp): 2527 lbs.

Beam: 91"

Fuel Capacity: 21 (3.0L) / 38 gal.

It's not stealing when you pay the price. But most people consider the 190L a steal anyway. We prefer to call it one of the best values you'll ever find. In addition to being very affordable, the 190L comes with a long list of standard features and conveniences including a center-mounted, integrated bow cooler with cupholders on either side. This design allows easy access to the cooler without interfering with passengers. In-floor ski storage, courtesy lights, a high power audio system and backlit gauges amid a rich graywood dash are part of the package.

You even have a choice of seating. The LS model comes with an adjustable bucket seat, an adjustable lounge seat, and twin jump seats that convert to a sunpad. Or you can swap the adjustable lounge seat for a twin bucket seat option. The LX sports twin buckets, a full-width aft bench and a large sundeck. Either way, the 190L is a steal.

190LS

190LX

- 1 Spacious bench seating and padded bolsters provide comfort for your passengers.
- 2 Instruments and controls are attractive, easy to read, and within reach of the captain.
- 3 Under seat storage for ski ropes, life vests, or other gear.
- 4 Use the in-floor storage area to hold your wakeboard and ropes while under way.
- 5 The contoured motorbox (LS) features hi-lo jump seats and access to the engine compartment.
- 6 Fill the in-bow ice chest to keep your drinks and snacks chilled.

190CS/CX CRUISER

LOA: 19' 0"

Weight (w/ 4.3L 190hp): 2622 lbs.

Beam: 91"

Fuel Capacity: 21 (3.0L) / 38 gal.

Weather is fickle. That's one reason we make the 190C, which is our smallest cuddy cabin. If the sun is out you can soak up the warm rays on the aft sun-deck or in the reclining lounge seat. But if it's chilly or raining, you can seek shelter in the comfy cuddy cabin. A sport bimini top with long-lasting Sunbrella fabric is also standard. The 190C's cuddy also provides overnight capability with its padded V-berth and portable toilet. The expansive bi-fold entry doors and large overhead hatch create an open feel to the cabin interior. But lock it up and you have privacy and security.

Swing out the space-saving foredeck access step, open the walk-through windshield and you can easily get to the anchor locker. The graywood dash houses a drink holder, stereo, 12-volt receptacle and a host of backlit instruments. The 190C lets you enjoy the outdoors, whatever mood you're in.

190CS

190CX

- 1 Bi-fold cabin doors open to reveal a roomy cuddy cabin for sleeping or storing gear.
- 2 Cupholders are conveniently located for storing sodas and water bottles.
- 3 Adjustable rear seats can be used for sitting or, raise them to form a sunpad.
- 4 The dash features woodgrain trim and attractive backlit gauges.
- 5 Three-position lounge seat (CS models) in full recline mode. Lift the seat for storage access.

190FX FISH & SKI

LOA: 19' 0"

Weight (w/ 4.3L 190hp): 2608 lbs.

Beam: 91"

Fuel Capacity: 21 (3.0L) / 38 gal.

The toughest decision you'll face regarding the 190FX is whether to hang out the "Gone Fish'n" sign, or the "Gone Ski'n" sign.

In ski mode, the 190FX works great for skiing, boarding and tubing--or just cruising. Adjust the boat's stern-drive to form small wakes for slalom skiing, or monster wakes for high-air boarding maneuvers. Dedicated ski storage, integrated ski tow ring and a recessed boarding ladder, make the 190FX perfect for the skier. Fill the built-in cooler and crank up the high power audio system and you're ready to hit it.

When it's time to fish, simply remove the bow cushions and sunpad and slip the fishing seats into their integrated sockets and start casting. Fishing amenities include an aerated livewell, built-in tackle drawers and rigging for the addition of a trolling motor.

After a day on the water with the 190FX, we think you'll want a sign that reads "Gone Fish'n and Ski'n."

Fish Mode

Ski Mode

- 1 Use the aerated livewell to keep your bait or catch of the day fresh.
- 2 Built-in tackle drawers will keep your lures and accessories sorted and within reach.
- 3 With the filler cushions in place, the bow makes a nice area for sunning or just taking a nap.
- 4 The sundeck converts to a pedestal seat pad, making it easy for you to get into fishing mode.
- 5 There is also a pedestal seat for the bow area, so invite one of your fishing buddies along.

Shown with optional flag graphic package.

195LR BOWRIDER

LOA: 19' 5"

Weight (w/ 4.3L 190hp): 2580 lbs.

Beam: 91"

Fuel Capacity: 38 gal.

Supporting our next-generation patented Z-Plane hull, this bowrider gives you the sensation of riding on air. Part of the new design includes special contours to the running surface that extend beneath both sides of the swim platform and create virtually three-point contact with the water at high speeds. As a result, when properly trimmed, most of the hull is truly riding on air.

The 195LR performs so nicely that, with a light load, it surpasses 60 mph with a V-6 engine. Look as you will, but you're not likely to find a better performing, more fuel-efficient, family boat anywhere. It's that good.

The 195LR also offers much in the way of creature comfort, including solidly built bucket seats, a stylish, well-cushioned wraparound bench, complete with oversize drink holders, and a contoured bow area.

There is a long list of standard features and conveniences including a center-mounted, integrated bow cooler with cupholders on either side. This design allows easy access to the cooler without interfering with passengers.

Like all Stingray models, the 195LR features a performance-enhancing notched transom, custom engine vibration dampers, automatic bilge pump with manual override, stainless hardware, premium 32-oz vinyl, and a remote oil changing system.

- 1 A roomy interior and spacious storage areas make this a great boat
- 2 Lift the cushions in the bow to reveal storage areas for stowing your gear and equipment.
- 3 The bow area features contoured seating to maximize roominess and comfort.
- 4 For the captain, there's a molded bucket seat and a full panel of easy-to-read instrumentation.
- 5 Portside you will find a high-power audio system and a locking glovebox.
- 6 The 195LR features comfortable wrap-around seating and a large sundeck.

200LS/LX BOWRIDER

LOA: 20' 3"

Weight (w/ 5.0L 260hp): 2720 lbs.

Beam: 92"

Fuel Capacity: 38 gal.

Not too big and not too little. The midsize 200L is a perfect fit for many boaters—and their pocket-books. The open bow caters to passenger comfort with its reclined backrests and easy-to-reach insulated cooler. The cockpit is very accommodating too, offering a choice of X or S seating configurations to fit your preferences. A ventilated, in-floor ski/wakeboard locker and a wide assortment of compartments keep accessories out of the way, yet close at hand.

Extras you'll find include a high power CD player, tilt steering, 32-quart built-in insulated cooler, anchor locker, Sunbrella sport bimini top and hull graphics package.

Once a Stingray owner, log on to our Owners Only site at MyStingray.com where you can find information about your boat, view a parts list, join a community of other Stingray owners where you can make new friends and ask questions, and much more!

200LS

200LX

- 1 The 200L offers roomy bow seating area for passengers who want to feel the wind in their faces.
- 2 Aft passengers can relax on the full-width bench seat or lounge on the sundeck.
- 3 Lift the latch in the bow compartment to expose the anchor locker storage area.
- 4 A three-step recessed boarding ladder makes re-entry a breeze.
- 5 Lift the bench seat to find storage for your skis and other oversized items.
- 6 The interior of the 200L is spacious and offers an abundance of storage areas.

200_{CS/CX} CRUISER

LOA: 20'3"

Weight (w/ 4.3L 220hp): 2827 lbs.

Beam: 92"

Fuel Capacity: 38 gal.

Taxes—considered by many to be a four-letter word with five letters—is given an upbeat connotation when used in conjunction with the 200C. That's because the 200C—with its porta-potti, single burner butane stove and molded in freshwater sink—has the equipment to qualify for second-home tax deductions.

There are other freedoms associated with the 200C. Like the freedom to extend your boating experience through the night and into the next day; of not having to stay close to a land-based restroom; of preparing and eating meals onboard. Then there's the freedom of choice: what kind of seating arrangement do you want in the cockpit? Or what about the freedom to listen to your favorite music, thanks to the standard CD player. Or the freedom to bring your favorite beverage and someone else's, due to the large 46-quart built-in cooler. You might say the 200C is liberating.

200CS

200CX

- 1 A full-featured cabin offers a sink, porta-potti, and butane stove. Great for overnight stays!
- 2 The helm station offers easy to read instruments and a cupholder for the captain.
- 3 Use the in-floor ice chest to keep your drinks and snacks chilled.
- 4 The CS model features jump seats that easily convert to a sunpad.
- 5 Pop the hatch in the cabin to get some fresh air or to gain bow access.
- 6 A swing-away step allows easy access to the bow area.

200MS FISH & SKI

LOA: 20' 3"

Weight (w/ 4.3L 220hp): 3052 lbs.

Beam: 95"

Fuel Capacity: 50 gal.

How do you spell versatile? We spell it 200MS. This is without doubt, one of the best multi-purpose boats to ever cut a wake.

Although fishing and wakeboarding are different hobbies, they meld beautifully with the 200MS. Anglers will love the horizontal rod storage, upright rod holders, forward casting platform with integrated fish box, built-in tackle drawers, 14-gallon aerated livewell with adjacent fish boxes, transom rigging station and walk-around center console.

Wakeboard enthusiasts will appreciate the 200MS's unique engine configuration that places the engine amidships to provide better planing at slow speeds and tournament skiboat-like tracking. A jackshaft allows use of a conventional outdrive, which can be trimmed to fine tune the boat's wake to skier preference without having to use some form of ballast. A T-top is optional.

Anglers and boarders alike will value the 200MS's plentiful storage, 100-quart insulated cooler and the outstanding performance and maneuverability that only Stingray's patented z-plane hull can deliver.

- 1 At the transom you will find two dry storage boxes and a center livewell box.
- 2 Molded-in storage on both sides keeps your rods and wakeboards out of the way when not in use.
- 3 The helm station features two captain-style chairs and easily accessible panels and controls.
- 4 Slide out tackle drawers are molded into the side of the console for easy access while fishing.
- 5 The bow section features large seating, ample storage, and a casting platform.

220^{CS} CRUISER

LOA: 21'6"

Weight (w/ 4.3L 220 hp): 3143 lbs.

Beam: 97"

Fuel Capacity: 39 gal.

Big cuddy or small cruiser? We'll let you decide. Regardless, the 220CS has what it takes to provide a great day on the water, followed by a restful night. The cabin has a plush V-berth and dual facing seats that can be transformed for overnighting. Twin screened port-holes complement the large on-deck hatch to provide natural light and ventilation, while the bi-fold doors with their smoked Lexan inserts provide outstanding access. Cleverly concealed, yet readily accessible, are a molded-in sink, butane stove and portable toilet. This added equipment can qualify the 220CS for second home tax status.

The 220CS's large integrated swim platform, with its three-step stainless steel ladder and convenient grab handles, makes it easy to participate in a variety of water-sports. The boat's extra deep interior protects its occupants from wind and spray and provides plenty of room for passengers to move about freely.

- 1** The hi-lo jumpseats can be converted from normal seating to a large sunpad.
- 2** The bow area of the 220CS is covered with a nonskid surface to make access safe and easy.
- 3** An in-floor ice chest is situated between the driver and passenger seats.
- 4** The cabin provides a place to read or relax out of the sun, or a place to take a quick nap.
- 5** The interior of the 220CS is open and roomy, making it a perfect family boat.

220LX BOWRIDER

LOA: 21'6"

Weight (w/ 5.0L 260hp): 3004 lbs.

Beam: 97"

Fuel Capacity: 39 gal.

Everyone wants to be popular. The 220LX practically guarantees it. Trust us. Pull the 220LX into your driveway or boat slip and you'll have more friends than last month's lottery winner—especially if you showcase it on your personal web page, which is a perk all Stingray buyers receive. The beauty is you have enough room to take plenty of your new friends with you if you want to. Max capacity is eight persons.

This sleek open bow has the performance of a sport-boat, enough storage capacity to satisfy a pack rat, such striking good looks that it will make the meek vain, a price to satisfy the most practical and a resale value any broker will drool over.

A host of standard features make the 220LX all the more popular. For instance, it comes with a sport bimini top and see-through windshield connector, magnetic compass, sport bucket seats with flip-up bolsters and a CD player.

- 1 The helm station features a soft-touch dash, dino steering wheel, and easy-to-read backlit gauges.
- 2 Take your friends for a ride while they relax on the spacious bench seat with padded headrests.
- 3 With a spacious interior, the 220LX is sure to please all of its passengers.
- 4 With its roominess and luxurious padded seats, it's easy to relax in the bow of the 220LX.
- 5 The sport bucket seat features a flip-up bolster to raise the seat, if necessary, for better visibility.
- 6 The 220LX offers comfort, great looks, and roominess - it's sure to please!

220SX SPORTBOAT

LOA: 21' 6"

Weight (w/ 5.0L 260hp): 3320 lbs.

Beam: 97"

Fuel Capacity: 39 gal.

Feel the need for speed? Stingray's SX series is your ticket to the high performance highway. The 220SX has a sleek profile and nimble performance. Riding on Stingray's unique z-plane hull with its notched transom, this beauty literally glides over the water at full throttle and is capable of carving figure eights better than a chef does prime rib.

The 220SX does more than deliver outstanding performance, however. Beneath its racy deck lies a cabin with all the comforts of home. Fact is, it can qualify for second-home tax benefits. Standards include a porta-potti, sink, butane stove and twin cabin seats that convert into V-berth extensions in seconds.

The cockpit is equally nice with adjustable bucket seats equipped with handy flip-up cushions, a contoured aft bench and sunpad, built-in ice chest and high power CD player. An ergonomic dash houses a compass and a full array of gauges—the favorite of which will undoubtedly be the speedo. Go baby, go!

- 1 The passenger dash includes a glove box, grab handle, and CD / stereo system.
- 2 Special 220SX graphics line the foredeck. Pop the hatch for access from the cabin.
- 3 The cabin area features two facing bench seats that convert to a v-berth.
- 4 Backlit gauges and instruments line the dash panel.
- 5 A low-rake, curved glass windshield compliments this sportboat's style.
- 6 The large swim sundeck makes it easy to relax. Lift it up to access the engine compartment.

220_{DR} BOWRIDER

LOA: 22'3"

Weight (w/ 5.0L 260hp): 3811 lbs.

Beam: 99"

Fuel Capacity: 62 gal.

Our 220DR deck boat is like a pontoon boat on steroids. It offers the room and utility benefits common on wide-body pontoon boats, but it rides on our patented z-plane hull and comes with enough muscle to give it all-star performance.

Fore and aft boarding ladders are ideal for retrieving skiers and swimmers and make beach landings a breeze, while bow and transom shower/washdowns facilitate easy cleanup. Multiple coolers, abundant seating, sunbathing filler cushions fore and aft, unbelievable storage space including a massive transom trunk and dedicated bow anchor locker, two table mounts (fore and aft), CD player and recessed docking lights combine to make the 220DR a deck boat of celebrity status. It even comes with a built-in sink, an enclosed head compartment with a screened porthole and enough drink holders to keep an octopus happy.

Good looks, a great build and unparalleled performance make the 220DR a champion in any lake.

- 1 Everything the captain needs to command his boat is right at his fingertips.
- 2 The sport bucket seat features a flip-up bolster to provide the driver with extra height and visibility.
- 3 Wraparound seating provides ample room for all family members.
- 4 A freshwater sink, cooler, and countertop space make it easy to prepare lunch and snacks.
- 5 With the filler cushions in place, the bow area can be used as a sunpad, or just a place to relax.
- 6 Bow and transom ladders and showers exist for easy access and cleanup.
- 7 Table mounts in the bow and stern areas make it quick and easy to install the table.

230LX BOWRIDER

LOA: 22'8"

Weight (w/ 5.7L 300hp): 3224 lbs.

Beam: 96"

Fuel Capacity: 57 gal.

The 230LX is a bowrider with attitude. First, its blend of power and hull design guarantees sportboat-like performance. Second, it takes open bow seating to a new level of luxurious comfort with ergonomically inclined lounges and canted backrests that naturally allow passengers to relax and enjoy the ride. Adding to the appeal are soft coaming pads with recessed stereo speakers and drink holders. Once you settle in you may not want to leave, so we even incorporated a center-mounted ice chest for easy access.

The 230LX is also a looker. Contributing to its sleek appearance, the bow rails are mounted inside, the forward cleat is recessed, and the deck contour rises to absorb the rakish windshield so it looks integral rather than added on.

Rounding out the 230LX's appeal are a host of standard features that include a compass, CD player, rich graywood inserts and sport buckets with flip-up front cushions, to name a few.

- 1 The helm area features attractive, easy-to-read instruments.
- 2 Your passengers will enjoy the contoured bow, and the speakers will provide music to your ears.
- 3 The in-floor storage locker in the bow area is great for stowing your watersports equipment.
- 4 The spacious sundeck and integrated swim platform allows you to stretch out and enjoy the sun.
- 5 Lift the bench seat to access a carpeted storage area large enough for skis and other gear.

230SX SPORTBOAT

LOA: 22'8"

Weight (w/ 6.2L 320hp): 3557 lbs.

Beam: 96"

Fuel Capacity: 57 gal.

Wow! This is one hot sportboat! The 230SX is Stingray's leanest and meanest, with take-me-serious power options guaranteed to satisfy any throttle jockey's quest for an adrenaline rush. Although well-mannered, thanks to Stingray's proven z-plane hull, once you light the wick you'd better be pointed in the right direction.

Proof that performance doesn't have to be at the expense of comfort, the 230SX has a cabin that rivals that of a small cruiser. Its plush interior features adjustable lighting and a screened deck hatch, plus a concealed galley and head that is a marvel of computer design and manufacturing. At first glance the cabin consists of a comfortable V-berth and facing seats. But lift the sectionalized berth and it reveals a portable toilet, freshwater sink and removable butane stove.

It's amazing how a boat this hot can make its occupants look so cool.

Sportboats just don't get any better than this. The 230SX. Feel the sting!

- 1 A padded bench seat makes it comfortable for aft passengers to stretch out and enjoy the ride.
- 2 The helm features a woodgrain dash insert and attractive backlit gauges.
- 3 No matter what angle you look at it, the 230SX is a sportboat with style and attitude.
- 4 Cabin seats convert to form the v-berth. Lift the cushions to access the stove, sink, & porta potti.
- 5 The engine compartment area provides easy access and extra storage areas.
- 6 Special 230SX graphics are a nice accent for the sleek foredeck area.

240LR BOWRIDER

LOA: 23'6"

Weight (w/ 5.0L 260hp): 3993 lbs.

Beam: 102"

Fuel Capacity: 68 gal.

Here's a formula for you Einstein's out there. Big water + big bowrider X fun10 = 240LR. Yep, our biggest bowrider is made to handle big water with ease, thanks to its higher than average freeboard and extra deep interior. And it incorporates so many cool features that it raises the fun factor to exponential levels. Things like a built-in refreshment center with a freshwater sink and dedicated storage for a removable 25-quart cooler. Opposite it is a built-in cooler for extra goodies. It even comes with an enclosed head.

The 240LR is a big bowrider with overnight sleeping accommodations. Two can snooze comfortably on the aft U-shaped lounges when the filler cushions are in place. Another special feature is the unique cockpit to swim platform access. Rather than waste space on a transom door and companionway, simply remove the center bench cushion and follow the series of integrated steps.

Now how about that $E=MC^2$ thing.

- 1 Contoured bow seats, grab handles, speakers, ice chest, and cupholders. Everything you need!
- 2 Put the filler cushions in place to create a large sunpad or sleeping area.
- 3 A freshwater sink and cooler are located amidships for easy access.
- 4 Remove the cooler lid for access to chilled drinks. Flip the lid over to use as a cutting board.
- 5 All space is utilized with an enclosed head compartment port and a storage area starboard.
- 6 Table mounts, fore and aft, make it easy to install the table and prepare lunch or snacks.

240_{CR} CRUISER

LOA: 23'6"

Weight (w/ 5.0L 260hp): 4037 lbs.

Beam: 102"

Fuel Capacity: 68 gal.

Have an itch for adventure? Why not let the 240CR scratch it. This trailerable cuddy cruiser can take you to new horizons in style.

The 240CR's spacious cockpit with its plush U-shaped seating and twin sport buckets provide a perfect environment for cruising and socializing. Toss in the filler cushions and soak up some rays, or set up the cockpit table for games and snacks prepared at the entertainment center. And if you discover that perfect beach, take the party ashore with the portable 25-quart cooler and removable butane stove.

When you've ventured as far as you want, call it a day and grab some sweet repose in the well-equipped cabin, which sleeps two. The rear cockpit lounge can accommodate two more, giving the 240CR 2+2 sleeping capacity. Other features include a portable toilet, screened cabin portholes, transom shower, CD player with remote and a compass to guide you home. Columbus should have had it this good.

- 1 Climbing to the foredeck couldn't be easier with the integrated access steps.
- 2 The 240CR cabin is roomy enough to comfortably sleep two adults.
- 3 The sport bucket seat is equipped with a flip-up to increase the seat height for improved visibility.
- 4 The versatile u-shaped seating area can be used as shown, with filler cushions, or with a table.
- 5 A freshwater sink and cooler are located amidships for easy access inside or outside the cabin.
- 6 Corner cushions lift to expose the filler cushions and the cockpit table and mounting pole.
- 7 With multiple storage areas, stove, porta-potti, and adjustable lights, this cabin is fully equipped.

Do you hate for your day of boating to end? Then don't let it! The 240CS is your hotel afloat. Its luxurious cabin is designed to pamper you with plush overnight accommodations. There are two berths—one in the main cabin and another in the separate mid-cabin. The forward berth converts into a dinette to serve meals prepared at the galley, which consists of a stainless sink, icebox, alcohol stove and stylish cabinetry. You also have the luxury of an enclosed head with a handheld shower and sink. For natural light and ventilation there are four screened portholes, a mid-cabin window and a large deck hatch. Shore power can be added to enhance overnighting capabilities.

In the cockpit you're greeted with a wide back-to-back recliner at the helm, an aft-facing lounge to port, and a wide bench aft—all of which can be enclosed with an optional camper canvas package.

Whoever said 'all good things have to come to an end,' obviously didn't own a Stingray 240CS.

- 1 Use the portside lounge with contoured headrest for reading, relaxing, or taking a quick nap.
- 2 The main cabin area can be used for sleeping, or you can insert the table for eating or games.
- 3 Porta-potti, freshwater sink, and storage are a few features of the enclosed head compartment.
- 4 With the extra large helm seat, the captain can invite a passenger to join him.
- 5 A aft bench seat is wide enough to comfortably seat two adults...or one who likes to stretch out.
- 6 Convert the helm seat to an extra large sunpad - perfect for napping or catching rays.
- 7 The mid-cabin features a screened porthole, storage behind the rails, and room for two adults.

A Electrical System Includes:
25 ft shorepower cable, bat-
tery charger, refrigerator,
alcohol/electric stove.

B 8 cylinder motors only.

C Prices shown are additional
costs for upgrading standard
equipment at time of manu-
facture.

D Available on MerCruiser
only.

F 8.1 engines are 2 to 3 mph
slower with this option.

- Denotes Not Available.

* Fish & Ski Includes: twin
casting platform with
pedestal seating, tackle stor-
age, trolling motor panel
w/dual battery box, livewell.

Prices and specifications are
subject to change. For the
most current and complete
specifications, visit stingray-
boats.com/options.

Full Function Head with Sink,
Shower, Storage and Opening
Vent Window (240CS)

Molded Coaming Insert with Weatherproof Speakers and Drink Holder

Cockpit Table with Floor Mount

Contoured Bow Seats with Concealed Storage

Freshwater Sink, Cooler, Countertop Area (220DR)

Molded Fiberglass Cabin Liner with Sink, Butane Stove, and Porta-Potti

Sport Buckets with Flip-Up Bolster

Under-Seat Storage

Stainless Steel Thru-Hull Exhaust (Option #11 Merc. or #6 Volvo)

Ritchie® Compass (Option #49)

Digital Depth Finder with Alarm (Option #48)

Passenger side glove box (185LS/LX, 195LR)

17-Gallon Aerated Livewell (190FX)

Aft Cabin with Full Size Bed and Opening Vent Window (240CS)

Translucent Aluminum Frame Deck Hatch with Custom Graphics

Bow Steps (240CR)

32-quart Ice Chest (195LR shown)

Propellers are an exchange up charge at time of order.

SS Props std. on Bravo 3 and 300HP and larger motors.

A Weights vary depending on installed options

* All boats that exceed 320hp must have option 11 (SS Thru Hull Exhaust) or option 55 (Captains Call) installed to achieve the maximum speeds shown in the Performance Options chart.

† Fuel capacity is 21 gal. with 3.0L, 38 gal. with 4.3L

CAUTION: At wide-open throttle (WOT) the propeller on your boat should not cause the engine to operate below the minimum RPM range published by the motor manufacturer. Running your boat at WOT below the recommended minimum RPM can cause serious damage to your motor that is not covered by warranty.

Specifications are subject to change at any time without notice or obligation. To avoid disappointment at the time of purchase please check with your Stingray Dealer for current information and specifications.

Performance data comes from factory testing, independent engine manufacturer testing or independent magazine testing. All boat speeds and propellers shown are to be used as guidelines only for general applications as boats and operating conditions will vary. The best propeller for specific boating needs can only be determined by performance testing by your dealer. Results on individual boats may vary depending on many factors, including driver, weather, altitude, load, condition of propeller, lower unit, and boat bottom. Matching of your boat and use conditions to the proper propeller by your dealer will make your boating experience more enjoyable and keep your engine running longer and stronger. Propellers used during testing are shown to be used as a guideline only and are not intended to be an absolute recommendation.

Your Stingray Dealer

WARRANTY INFORMATION

All Stingray warranties are limited warranties within the meaning of Title 1 of the Federal Trade Commission Improvement Act. A full statement of coverage, terms, and conditions applying to the Stingray warranty has been furnished to all Stingray dealers. In addition, information is supplied with each new boat.

Please read carefully the terms and conditions provided in Stingray's Express Limited Warranty accompanying the sale of your boat. The actual length of warranty coverage for your boat may vary depending on the date of original manufacture and sale date of your boat.

ABOUT THIS BROCHURE

Only a partial list of standard equipment is shown, and some boats are shown with optional accessories. Styling, design, equipment, prices, colors, and construction are subject to change without notice or obligation. To avoid disappointment, please check with your Stingray dealer for current information at the time of purchase.
