About Stingray

Based in Hartsville, South Carolina, Stingray occupies over 225,000 square feet of manufacturing facilities and is situated on 46 acres.

Independently Owned Stingray is a privately held, family-owned business, representing one of the longest continual ownerships in the marine industry today! Stingray has been building quality runabouts since 1979 based on some very basic principles: innovation, craftsmanship, and integrity. Because of our "independent" status, Stingray can react to changing market conditions in a much shorter cycle time than the larger corporate entities. This often leads to early recognition of shifts in consumer trends or demographics and thus designing products to meet those needs in a more proactive way.

Financially Solid With Dun and Bradstreet's highest credit rating, Stingray is one of the most financially solid manufacturers in the industry. Stingray dealers and customers can depend on a strong partner to provide product innovation and customer support for years to come. We are proud of our debt-free status—a claim that few builders can make!

Value and Quality Oriented As one of the founding members of the American Boatbuilders Association (ABAboats.com), Stingray is in excellent company with the likes of Chaparral, Cobalt, Correct Craft, Ebbtide, Formula, Grady-White, Monterey, Pursuit, Regal, Rinker, and S2 Yachts. This is another

assurance that you are receiving the highest quality materials available at the best possible price. ABA members pool their expertise and resources to purchase only the best products and services available.

Technology Driven For the past two decades, Stingray has pioneered many of the advances of technology in the boat building industry. Equipment and tools that were not available just a few years ago are now the mainstays that enable Stingray to achieve unparalleled precision and efficiency i.e., computer-aided designs, multi-axis 3-D milling machines, water jet cutting machines, and CNC routers, to mention a few.

Environmentally Responsible Being a leader in technology is more than just a philosophy—it's a commitment designed to help ensure the preservation of our natural resources for generations to come. At Stingray, fuel efficiency, waste reduction, recycling, and reduced stack emissions are not just buzzwords—they are measured goals of each employee.

Technology Driven

Stingray leads the industry with many technological firsts. In 1985, Stingray was the first boat company to use CAD-driven CNC routers to produce production parts. In 1993, Stingray introduced the first 5-axis CNC waterjet designed to trim fiberglass parts, followed in 1996 by a CNC flatbed waterjet for cutting flat goods. And, in 1998, Stingray was the first to use environmentally friendly, low-VOC gelcoats and resins. Stingray continually seeks ways to push the technology boundaries.

Computer Aided Design and Manufacturing

Every Stingray begins as a 3-dimensional computer model. We “build” the boat on-screen and carefully scrutinize each component for size and fit, making all of the necessary adjustments before we ever commit the design to fiberglass. We even use a virtual human to check for legroom and headroom—and to be sure that all of the controls are located comfortably within reach. The information from this 3-D model is sent to the next step in the process: 3-D milling.

Multi-Axis 3-D Milling Machine With information available from a 3-D computer model, milling machines can produce a full size model in a matter of hours—a task that would take weeks otherwise. With unequalled precision, the running surface of the hull is cut to the exact specifications. Our master craftsmen then provide the mirror finish that is a hallmark of Stingray quality.

Robotic Lamination Facility

Visitors are always impressed by our plant’s cleanliness and unique manufacturing systems. In our lamination building, a custom-designed overhead tram system was developed just for Stingray. Parts under construction are moved from one bay to the next for layup and curing. This system also keeps track of our in-process fiberglass parts while optimizing mold usage and improving productivity. Process automation also increases worker safety, helps maximize efficiency, and improves quality.

Waterjet Cutting Machines Many parts on a Stingray are cut using one of our high-pressure water jet machines. A stream of water no thicker than a human hair slices quickly and neatly through a variety of materials much easier than could be done by hand. Materials such as carpet, foam, vinyl, canvas, rubber, and fiberglass are quickly transformed into precision quality parts.

CNC Routers Computerized numeric controlled routers are used to cut various sheet goods into high quality parts. The computer allows us to “nest” a group of parts efficiently to minimize waste. Because the process is computer controlled, each part is dimensionally identical from one run to the next and can be finished much faster and more inexpensively than those produced by hand.

Patented Z-Plane Hull

Stingray’s patented Z-Plane hull is up to 30% more efficient than other boat hulls. Our boats run faster, corner better, and get remarkably good gas mileage. This means that you can enjoy your boat more for less operating cost. Visit StingrayBoats.com/performance to see how Stingray boats stack up against the competition.

Internet Leader

StingrayBoats.com Beyond a few pictures and specifications, our web site will immerse you in an interactive experience that will enable you to find most everything you need, before you even step foot into a dealer showroom. From the privacy of your home, you can:

Visit Your Dealer's Showroom Anytime Using your zip code, locate your nearest dealer and view their inventory to see if the boat you want is in stock. You can view their in-stock and on-order boats. Once you select a boat, the MSRP Sticker will be displayed, allowing you to calculate a monthly payment and request a quote from the dealer.

Obtain Pricing Online If your local dealer does not have the boat that you are looking for, build your own using our online Customize and Price Boat feature. Just enter your zip code, select a dealer, choose the model you're interested in, and pick an engine and any desired options. We will calculate the manufacturer's suggested retail price and display a window sticker. From there, you can use our payment calculator to estimate a monthly payment and request a quote from the dealer you selected.

Get Help Choosing a Model If you need a little help deciding which model is best for you, we have several features to assist you in your decision. Our articles and reviews library is packed full of third party articles, reviews, and boat tests that cover an entire decade! And, for a head-to-head comparison against another boat that you may be considering, our Performance Comparisons compile the results from thousands of independent tests into a single database. Here you can select from almost any boat manufacturer to see how they compare to Stingray when it comes to speed and fuel economy.

MyStingray.com Stingray boat owners are in a class of their own when it comes to Internet technology. That's because every owner has their very own web page where they can access information about their boat, communicate with other owners, receive personalized answers to technical questions, and even update their online photo album at any time!

MyStingray.com is designed to provide you with personalized information about your boat, keep you apprised of the latest developments at Stingray, and offer you a communication portal where you can ask questions and make friends with other owners.

My Boat Photos Share your favorite boating photos with your friends and family. It's easy! Within minutes, you can create a personalized photo album with your favorite boating pictures and stories. And, you will have your own web address to share with everyone!

Owner Forum Have a question about your boat? Looking to find other Stingray owners in your area? Whether looking for an answer to a question, just wanting to chat about boating, or locating a Stingray owner get-together, the Stingray owner forum is the place to be. Conversation ranges from simple chatter to in-depth technical discussions.

Owner Rallies & Factory Tour Join in the fun! Over half a dozen owner rallies were held throughout the United States this past year—bring your boat and your family and friends. And don't forget the Stingray sponsored factory tour. Each year Stingray hosts a factory tour for owners, where they can see how their boat was built.

And More! FAQs, auctions, parts, manuals, performance calculator.

Environmentally Responsible

Stingray's commitment to the environment goes beyond that which is mandated or regulated—it is an internal philosophy to do our part to protect the environment—not just for the next generation, but for generations to come. Consider a few of the things that we are doing to protect our planet:

Use of Four-Cycle Engines Stingray uses only three-star rated, four-cycle engines, which are the cleanest and most fuel efficient available for marine use. Better fuel efficiency translates into less fuel consumption. Three-star engines can be four to ten times cleaner than two-cycle outboards, which means less pollution to our environment.

Ozone-Friendly Flotation Foam Stingray uses non-ozone depleting flotation foam by BASF. It is free of chlorofluorocarbons—gases that are depleting the earth's ozone layer. Ask about the use of zero-ozone depleting (zone 3) foam when considering boat brands.

Fuel Efficiency The performance and efficiency of our patented Z-plane hull, documented by third party reports, is unmatched. Better fuel efficiency translates into less fuel consumption, but more importantly, it means less carbon dioxide emissions.

Low VOC Gelcoats and Resins Stingray was the first boat manufacturer to convert to the use of low styrene laminating resins and gelcoats. The combination of these low VOC materials coupled with the latest in low pressure, high temperature spray equipment has reduced Stingray's VOC stack emissions by over 55%.

Fuel Surge Protectors Every Stingray is equipped with a fuel surge protector, for venting the system through the fuel fill cap. This helps avoid refueling spills normally associated with external fuel vents. This helps to protect our lakes and streams.

Waste Reduction/Recycling Stingray has a recycling program for most waste materials including, but not limited to, cardboard, composites, aluminum, pallets, and metal drums. In cardboard alone, Stingray recycles over 163,000 pounds per year.

Committed We want Stingray owners not only to have fun on the water, but also to know that they are helping to protect the environment at the same time.

Safety Conscious

With any recreational product, safety is paramount. Families not only seek safe environments, but safe products as well. Every Stingray boat is built with safety in mind.

NMMA/USCG Certified All Stingray boats meet or exceed National Marine Manufacturer Association (NMMA) and US Coast Guard (USCG) certifications requirements for safety, such as horsepower, load capacity, steering, fuel systems, compartment ventilation, navigation lighting, and backfire flame control.

CE Certified Stingray competes on a global scale and has dealerships located throughout eastern Europe, from Germany to Denmark to Russia, and to far reaching countries of Turkey and Australia. Boats destined for these countries must meet stringent Consultants Europe (CE) certifications.

Warranty Every Stingray boat is backed by a comprehensive warranty for peace of mind.

FIVE-YEAR LIMITED TRANSFERABLE STRUCTURAL HULL WARRANTY STINGRAY Boat Co. (hereafter "STINGRAY") warrants the HULL against structural defects in material and workmanship for a period of five (5) years from the date of purchase or six (6) years from the date of manufacture, whichever period elapses first. The warranty provided in this section is to the original retail owner only and applies only if the boat is purchased from an authorized STINGRAY Dealer. During the warranty period described above, STINGRAY will repair or replace, at its option, the fiberglass HULL if it is determined, in Stingray's discretion, to be structurally defective in material or workmanship. For purposes of this warranty, the HULL is defined as the part of the boat in contact with the water when at rest. The warranty provided in this section is subject to all limitations and conditions contained herein. The remaining term of this HULL Warranty, if any, may be transferred to subsequent owners if, within 30 days of purchase, the new owner registers the transfer with STINGRAY and pays the established warranty transfer fee. Contact STINGRAY Customer Service at www.stingrayboats.com/transfer for further details on transferability.

THREE-YEAR LIMITED OSMOTIC HULL BLISTER WARRANTY STINGRAY warrants against hull blistering caused by osmosis that is discovered and reported to STINGRAY during the first 3 years of ownership (subject to the prorated schedule below). The warranty provided in this section applies to the original retail owner only and is VOID if the original factory gelcoat surface has been altered by excessive sanding, scraping, sandblasting, or accident repair. A marine barrier coating with proper surface preparation is required if the boat is bottom painted or if the boat is left in fresh or salt water for more than 60 days in any 90 day period. In the event of osmotic blistering, STINGRAY will, at its option, repair or cause to be repaired any hull damage and apply a layer of marine barrier coating to the affected surface area(s). Osmotic hull blisters are defined as those blisters, larger than one-eighth inch in diameter and with a depth greater than one-sixteenth inch, which occur on the hull below the waterline. Repairs will be performed (at STINGRAY'S discretion) by the selling dealer, a designated service center, or the STINGRAY factory. The following prorated schedule of parts and labor will be covered by STINGRAY: Blistering discovered and reported to STINGRAY less than one (1) year from date of purchase - 100%; between one (1) and two (2) years from date of purchase - 66%; between two (2) and three (3) years from date of purchase - 33%. All osmotic hull repairs must be pre-approved by STINGRAY prior to any work being performed. Transportation cost is the boat owner's responsibility. Reimbursement shall be limited to one repair, not to exceed eighty US dollars (\$80 USD) per foot of hull length resting below the waterline prior to prorating.

Mercury Certified Stingray was the first boat builder to be certified by Mercury. This rigorous certification program partners Mercury engineers with boat builders to incorporate lean six sigma principles with world-class process controls on the plant floor. This certification includes extensive model testing, system analysis, employee training, and inspection procedures designed to give prospective buyers the assurance that Stingray boats are built to the highest standards in the industry.

The all-new 250CS mid-cabin cruiser

ONE-YEAR LIMITED GENERAL WARRANTY STINGRAY boats are warranted to the original owner to be free of defects in materials or workmanship for a period of one (1) year from the date of purchase (not to exceed two (2) years from date of manufacture) subject to all limitations and conditions contained herein.

LIMITED EXTERIOR FINISH WARRANTY STINGRAY warrants the exterior gelcoat finish to be free from cosmetic cracks or crazing for a period of 90 days from the date of purchase to the original retail owner, subject to all limitations and conditions contained herein. All warranty work is to be performed at an authorized STINGRAY dealership, the STINGRAY factory, or other location authorized by STINGRAY after it is decided, in STINGRAY'S sole discretion, that there is a defect as described herein.

BOWRIDER 180R

LOA: 18' 0"

Beam: 85"

Avg Weight (w/ 3.0L): 2,175 lbs

Fuel Capacity: 21 gal

FULL-FEATURED

DEEP BOW SEATING

SPORT SEATING

If price and performance are on the top of your shopping list, look no further—the 180RX delivers both!

Designed for the price-conscious boater who wants a reliable, great performing, fuel efficient boat, the 180RX is just the ticket. A true 18-foot boat powered by a 3.0 liter Volvo engine with power steering, this package delivers unmatched performance for its class. At just under 50 mph, depending on the number of passengers and gear, the 180RX is built to exceed expectations, not to mention just being plain fun on the water.

XL SUNDECK

180RX

XL SUNDECK

Many competitive models in this price range offer sundeck style seating as an option, for several hundred dollars more. On the 180RX, this sporty sundeck is a standard feature.

FULL-FEATURED

Standard features were not sacrificed in this entry-level boat. Full instrumentation, stainless steel hardware including windshield braces, cleats, fuel fills, and overboard drains, as well as molded helm seats with fore and aft adjusters, speak to an upscale boat at a "penny-pinching" price.

DEEP BOW SEATING

With a 31" deep bow from its floor to top deck, safety and comfort is a given. With cushions positioned well below the top deck, both kids and adults feel comfortable and secure when skimming across the water.

SPORT SEATING

Twin bucket seats are constructed of injection-molded polypropylene cores and covered with 36 oz. Nautolex vinyl with PreFixx protectant for easy cleanup.

BOWRIDER

BOWRIDER 185L

LOA: 18' 5"

Beam: 85"

Avg Weight (w/ 3.0L): 2,155 lbs

Fuel Capacity: 21 gal

Looking for a step-up from the 180RX? Consider the 185L and experience such features as a sporty, Dino Italian steering wheel, stainless steel bow rails, a pop-up stainless steel bow cleat and complementary spring line cleats, a full array of backlit instruments trimmed in a rich woodgrain, aluminum dash panel surrounded by a low-profile shroud, and a sport bimini top with windshield connector.

The passenger side features a flat panel dash with locking top-entry glovebox, an oversized drink holder, a stainless steel grab handle, and a hi-power stereo/CD. Contoured bow seating and two interior cockpit seating options, LS or LX, provide for hours of on-water enjoyment no matter which option you choose.

LOGO AMIDSHIPS

Shown with optional platinum checker graphic

LOGO AMIDSHIPS

The first model in the lineup to feature the recessed logo amidships. The logo is incorporated in the style line for a sharp, crisp look. From a standpoint of function, recessing the logo generally protects it from scrapes and scratches caused by docking or rafting up with fellow boaters.

LOW-PROFILE DASH

An elliptical-shaped dash shroud and instrument panel act as focal points for a full array of backlit instruments. A digital engine hour meter is an integral part of the on-board tachometer and tracks engine time to remind of pre-determined service intervals or for consideration at time of resale. Visibility is optimized. Glare is reduced. And, there is easy access for cleaning the inside of the windshield.

CONTOURED BOW AND STAINLESS STEEL BOW RAILS

The bow section of the 185 has been designed to be larger than its predecessor, the 180RX. Dual bow seats with carpeted storage underneath rest on curved fiberglass bases. Increased walk-way and leg room benefit from this unique design. And, the bow rails offer a stylish look, are extremely durable and corrosion resistant, and are ergonomically positioned for easy hand-hold in rough water.

IN-BOW COOLER

Featuring a non-skid surface, the cooler lid doubles as a bow entry step. Underneath the lid lies a 32-quart insulated cooler with overboard, stainless steel drain. Drinks stay cold for hours and water drains overboard.

HI-LO JUMP SEATS

This clever feature allows for a variety of uses within the same interior. Jump seats are quickly converted from a full-width sundeck position (Hi) to a sitting position (Lo). Additionally, they can be removed to allow for easy transom access for fishing.

185LS

185LX

BOWRIDER 195F

LOA: 19' 6"

Beam: 91"

Avg Weight (w/ 4.3L): 2,638 lbs

Fuel Capacity: 21 gal (3.0L), 35 gal

The 195FX is much like the Swiss Army knife i.e., unfold one item, tuck another away, and wa la, this ski-boat converts to a fish boat—it's that easy.

Based on the highly successful 195LX bowrider, the FX has added built-in features that allow you to tailor it to the watersport that you prefer at any given moment. When you want to fish, remove the bow filler cushions and the sundeck cushions, insert the pedestal fishing seats, one fore and one aft, and let the tournament begin.

In summary, one word best describes Stingray's 195 Fish & Ski— versatile.

AERATED LIVEWELL

PEDESTAL FISHING SEATS

Shown with optional stainless upgrade

AERATED LIVEWELL

Located beneath the sectionalized, full-width rear bench seat is a large livewell with an aerator, the perfect setup for keeping bait and fish fresh.

PEDESTAL FISHING SEATS

Two pedestal fishing seats are standard on every 195FX. No need to run to your favorite fishing hole and then remove the driver's seat to double as a fishing chair. The removable seats store in the engine compartment when not in use. With the 195FX, you have the best of both worlds.

TWO-DRAWER TACKLE BOX

No fish boat would be complete without a tackle box. Stingray builds one into the forward deck, just above the bow casting platform, for easy access to your favorite hook or lure.

BOW SUNPAD / CASTING PLATFORM

Do you want to fish or ski? Or maybe you're up for doing both—you decide. Remove filler cushions to reveal a full-width bow casting platform or insert the cushions for sunbathing or just plain cruising.

SKI VERSION W/ SUNDECK CUSHIONS

A two-part, zippered sunpad covers this expansive rear-carpeted casting platform when set up in the "ski mode."

TROLLING MOTOR MOUNT

While the boat is not equipped with a factory trolling motor due to the many models available on the market, the 195FX features a trolling motor mounting surface on the port side of the forward bow.

BOWRIDER 195L

LOA: 19' 6"

Beam: 91"

Avg Weight (w/ 4.3L): 2,580 lbs

Fuel Capacity: 21 gal (3.0L), 35 gal

Shown with optional extended swim platform and stainless upgrade

Three boats in one design! The 195L offers three distinctly different seating arrangements, from the conventional motorbox and jumpseat (LS) to the sporty sundeck (LX) to the wrap-around (LR) version—a seating option for every lifestyle.

More importantly, this boat is a performer—Boating Life Magazine touted the V-6 EFI version as “the first V-6 stern-drive we’ve tested that hits the 60 mph barrier.”

Loaded with amenities, this popular model features bow and springline pop-up cleats, a recessed 3-step boarding ladder, courtesy lights, a high-power audio system with CD player, rich aluminum dash, oversized drink holders, and a roomy contoured bow.

IN-BOW COOLER

LOW-PROFILE DASH

IN-BOW COOLER

A 32-quart in-bow cooler with overboard drain keeps drinks on ice for hours and drains overboard as the day wanes.

LOW-PROFILE DASH

High visibility and a low rake make for a practical, sporty dash. With a full array of instruments, all operating systems are visible at a glance.

LOCKING GLOVE BOX

A place for valuables (cell phones, wallets, etc.), as well as suntan lotion and keys!

EXTENDED SWIM PLATFORM

You would never know by looking but this oversize platform is really an add-on option. Its unique footprint maintains a one level platform versus that of two levels found on many competitive boats of this size. The surface is non-skid and it has a recessed, telescoping stainless steel boarding ladder for ease of deep water entry.

CONTOURED BOW SEATING

Adds styling and comfort to passenger seating, not to mention increasing legroom at critical points.

HINGED FLOOR STORAGE

Features oversized starboard lid with patterned non-skid. This easy-access hinged lid with stainless steel gas-assist strut is accessible with one hand and accommodates the latest in watertoys—wakeboards!

195LS

195LX

195LR

HINGED FLOOR STORAGE

BOWRIDER 200L

LOA: 20' 3"

Beam: 92"

Avg Weight (w/ 5.0L): 2,720 lbs

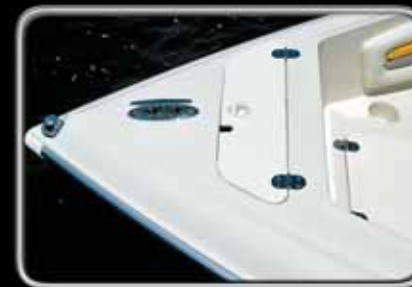

Fuel Capacity: 35 gal

Shown with optional extended swim platform and stainless upgrade

Dollar for dollar, the 200L is hard to beat. This midsize boat is just the right size when moving up the boating scale and offers small-block, V-8 engine choices for the spirited at heart.

The open bow caters to passenger comfort with its reclined backrests and easy-to-reach, insulated cooler accented with oversized cup holders. The cockpit is accommodating too, offering a choice of LS or LX seating configurations to fit your preferences. Both models feature injection-molded helm seats with fore and aft adjusters. A hinged, in-floor wakeboard/storage locker with stainless steel, gas assist strut allows accessories to be stored out of the way, yet close at hand.

The cockpit includes interior courtesy lighting and a hi-power stereo/CD.

BOW ANCHOR STORAGE

BOW ANCHOR STORAGE

Standard equipment on the 200L, this anchor compartment is positioned on the bow for easy access and retrieval, includes a cradle to secure the anchor when running in rough water, and the compartment is deep enough to hold plenty of anchor chain and rope.

UNDER-SEAT STORAGE

With a beam of 92" this bowrider has the added advantage of full-width, carpeted storage under the rear bench seat. In many cases, a slalom ski is a natural fit and boat fenders seem to find a home here.

RECLINED BOW BACKRESTS

Comfort is taken to a new level with reclined bow backrests. Lean back, literally, and enjoy the ride.

EXTENDED SWIM PLATFORM

This oversized, extended platform is a great option, particularly when water sports activities are the order of the day! While it is an add-on option, the look is anything but as the rubrail follows the contour of the boat for an integrated look.

MULTI-STEP BOARDING LADDER

Whether you choose to stay with the integrated platform or add the optional, extended swim platform, a three-step stainless boarding ladder is standard equipment. The ladder extends to 36" for deep-water access.

200LS

200LX

RECLINED BOW BACKRESTS

EXTENDED SWIM PLATFORM

MULTI-STEP BOARDING LADDER

BOWRIDER 210L

LOA: 21' 2"

Beam: 93"

Avg Weight (w/ 5.0L): 2,850 lbs

Fuel Capacity: 35 gal

The 210L series features the latest in topside ergonomics. The creature comforts begin when you step onboard. An integrated, oversized swim platform leads to a companion walkway atop the sundeck in LX and LR versions. A fold-down step in the bench backrest provides easy access into the cockpit and multiple cockpit seating options are available to suit your personal preference.

LS models feature a four-position, passenger-side lounge seat with fore and aft adjusters as a standard feature. LS models also feature hi-lo jump seats on each side of the fiberglass insulated motor box. The jump seats provide a variety of uses for the same interior and quickly convert to a full-width sundeck.

LX and LR models come standard with twin sport bucket seats and a bench seat or wrap-a-round seat, respectively.

STAINLESS HARDWARE PACKAGE

BOWRIDER

STAINLESS HARDWARE PACKAGE

An optional upgrade that offers a stainless steel rub rail along with other stainless components, such as cupholders, steering wheel, vent covers, horn cover, and step pads to complement the already stainless steel windshield support braces, fuel fill, ski tow eye, grab rail, cleats, overboard drains, boarding ladder, etc.

POP-UP CLEATS

With the flick of the hand, the cleat can be raised to attach a line for docking. When not in use, the stainless steel cleats can be lowered to a flush-mount position for a smooth, on-deck appearance. These pop-up cleats are extremely reliable and functional since there are no complicated, internal moving parts.

COCKPIT ENTRY STEP

This flip-down step is integrated into the bench seat back rest. When not in use, one would hardly know it exists. But, when it comes time for your party to board, just flip the seat down and welcome them aboard.

COMPANION WALKWAY

Boarding has never been easier. When not in use, a sundeck filler cushion covers the walk way and converts it to a full sun pad for tanning.

EXTENDED SWIM PLATFORM

This water sports activity center is built-in—not simply an add-on. It is packed with features from the recessed, 3-step boarding ladder to the oversized non-skid surface, to a stainless steel grab rail for ease of entry. Whether wakeboarding, tubing, or just sitting with friends, this platform provides the place to do it all.

BOWRIDER 220D

LOA: 22' 3"

Beam: 99"

Avg Weight (w/ 5.0L): 3,811 lbs

Fuel Capacity: 62 gal

Shown with optional extended swim platform, stainless upgrade, and platinum checker graphic

The sleek styling of the 220DR gives the impression of a serious sportboat, and rightfully so. But once onboard, all the amenities of one "big" party boat come to mind. Consider the huge cockpit and bow that provides ample seating for eleven, an enclosed head in the port console with its step-in entry, a freshwater sink, insulated bow and cockpit coolers with overboard drains, and filler cushions fore and aft that convert standard seating to full sunpads.

And the amenities don't stop here. Fore and aft boarding ladders are present and are ideal for retrieving skiers and swimmers, not to mention making beach landings a breeze while bow and transom freshwater washdowns facilitate easy cleanup. Storage space is unbelievable—just lift any seat cushion to view cavernous "holds" for all of your water toys. Two table mounts (one fore and one aft) allow for easy setup in the preferred location. Replenish the energy level of all occupants using this two-position dinette.

LADDERS/
WASHDOWNS

BOWRIDER

FORE & AFT LADDERS/WASHDOWNS

A multi-step, stainless steel boarding ladder located at the bow and on the swim platform makes boarding a breeze. Just lower the 36" telescoping ladder for easy entry or exit. While you are at it, wash the sand off of your feet with the corresponding bow or transom freshwater washdown.

WRAP-AROUND SEATING

Much like the concept of surround sound, this unique seating style places everyone in close proximity to the action—all without sacrificing transom integrity. Filler cushions convert standard seating to an oversize sunpad or sleeping berth.

DINETTE TABLE AND PEDESTAL

A 20" x 30" rectangular dinette table, complete with built-in cupholders, is standard equipment on every 220DR. When not in use, the table and pedestal stow below deck in their own custom cradle. Two floor mounts allow the table to be erected either fore or aft, depending on preference.

BOW FILLER CUSHIONS

Filler cushions bridge the port and starboard bow seats to form one huge sunpad. These cushions are made of the same premium, 36-ounce Nautolex vinyl with PreFixx protectant found in every Stingray boat.

EXTENDED SWIM PLATFORM

A "must-have" option for the water sports enthusiast in your crowd. This oversize platform is actually an extension of your on-water lifestyle and offers a huge surface area for donning skis or wakeboards. Or, if you are just content to dangle your feet in the water at sunset, this becomes your private viewing platform. An on deck storage box acts as a step up to the cockpit as well.

BOWRIDER 220L

LOA: 21' 6"

Beam: 97"

Avg Weight (w/ 5.0L): 3,004 lbs

Fuel Capacity: 38 gal

Shown with optional low profile windshield, solid color deck & hull, & stainless upgrade

The sleek, low profile design makes the 220LX the envy of the waterway. It not only possesses the performance of a sportboat, but it is affordable as well.

A host of standard features make the 220LX all the more popular. For instance, it comes with a sport bimini top, magnetic compass, sport bucket seats with flip-up bolsters, tilt steering, and a hi-power stereo/CD player. The helm features twin sport dashes with a full complement of backlit gauges, including an electronic engine hour meter.

And, not many boats can seat eight adults and still maintain the "zip" inherent in a sportboat. Just shy of 22 feet, the 220LX is popular among boaters seeking a roomy bowrider that is versatile and trailerable. A boat like this offers the option of heading out to big water or navigating an inland lake.

SPORT DASH

SPORT DASH

Sharing many of the same components as its big brother, the 220SX, this performance-styled dash includes a full complement of gauges enclosed in stainless steel bezels, tilt steering, performance style sport wheel, and rocker switches with indicators for fingertip operation.

SPORT BUCKET SEATS

These contoured seats are made of a high-density polypropylene material and feature a front and rear leaf spring in the seat bottom designed to absorb shock. A two-position (flip-up or flip-down) bolster allows the rider to stand or sit depending on operational preference. Covered with 36-ounce Nautolex vinyl with PreFixx protectant, over a foam backing and moisture barrier, these seats provide unparalleled comfort and ride. The flip-up bolster adds 7" to seat height for maximum visibility.

RECLINED BOW SEATING

Comfort is taken to a new level with the introduction of reclined seat bases and backrests. Surprisingly, the comforts of home are now available on the water...so sit back, relax, and enjoy the ride.

GELCOATS / GRAPHICS

Several gel coat choices exist to fit the most discriminating personality or to closely match your tow vehicle. The 220L on the opposite page is featured in the optional solid titanium color with the optional low-profile, tinted windshield. For the more conservative bunch, available colors range from standard white to two-tone options of black, blue, red, titanium, or yellow. And, don't forget the standard, full windshield still is available. When it comes to graphics, choose the standard sport graphic or one of three optional graphics for your own personalized "go fast" look!

BOWRIDER 230L

LOA: 22' 8"

Beam: 96"

Avg Weight (w/ 5.7L): 3,224 lbs

Fuel Capacity: 57 gal

Shown with optional stainless upgrade
and USA sport graphic

The 230LX is a combination of speedboat technology and design mated to a family runabout. Not only does this 23-footer look like it is flying when sitting on the trailer, it truly hurtles at exhilarating speeds when on the water! The end result is a family runabout that delivers speed, but with great stability and poise.

This bowrider also takes the concept of open bow seating to a new level of comfort. Inclined lounges and canted back-rests beckon passengers to relax and enjoy the ride. Adding to the appeal are soft coaming pads with recessed stereo speakers and oversize drink holders. Once you settle in, you may not want to leave, so we even incorporated an ice chest beneath the forward entry step for added convenience.

Adjustable vent windows introduce cool breezes to the cockpit and indirect cockpit lighting creates the right mood when anchored or docked in the late evening.

RECESSED STEREO SPEAKERS

RECESSED STEREO SPEAKERS

Located in the bow, these speakers give forward occupants the ability to listen to their favorite tunes without having to "crank up the volume." Being recessed also provides protection from the elements. Throw in an oversized cupholder and you have an entertainment center that is hard to beat.

HINGED IN-FLOOR STORAGE

Deep enough to get lost in, this floor storage runs underneath from the cockpit walkthrough forward to the bow. It is hinged for ease of opening and closing and is carpeted to protect expensive water toys—wakeboards, skis, etc.

SUNDECK AND SWIM PLATFORM

The contoured sundeck features integrated bolsters for a sporty look and increased comfort. The center bolster is embroidered with the Stingray logo and incorporates a unique latch mechanism with hand-assist for opening. The swim platform is integrated with a stainless steel boarding ladder for ease of entry.

FIBERGLASS LINER / SNAP-IN CARPET

Available as options, one speaks to ease of maintenance while the other is used to dress up the cockpit, not to mention adding comfort underfoot.

SPORTBOAT APPEAL

The "nose" is long and sleek, the deck is contoured, the windshield is raked to just the right angle, and the transom is notched—all adjectives that describe a high performance sportboat—yet, this one is a bowrider.

BOWRIDER 250L

LOA: 25' 0"

Beam: 102"

Avg Weight (w/ 5.0L): 4,056 lbs

Fuel Capacity: 68 gal

Shown with optional stainless upgrade and liquid metal graphic

Looking for a fast, feature-laden, large bowrider? With sleek styling and patented performance, the 250LR truly represents the next generation of performance runabouts. With a 320 hp Merc or Volvo, this fuel-efficient package is capable of speeds in the mid-fifties. Seating begins at the transom and continues into the cockpit to form a wrap-around settee. Add the filler cushions to the bow or stern, and in just minutes you are lounging on an oversize sunpad. There is an enclosed head with dockside pumpout (as standard equipment). For easy cleanup, all upholstery features 36-ounce Nautolex vinyl with PreFixx protectant.

Time for snacks? Drop the table in place in the bow or the cockpit. A built-in refreshment center with freshwater sink allows you to rinse and store items. Two on-board coolers with overboard drains, along with a removable 25-quart cooler, will keep all beverages cold.

DINETTE TABLE & PEDESTAL

BUILT-IN COOLER

DINETTE TABLE & PEDESTAL

A 20" x 30" rectangular dinette table, complete with built-in cupholders, is standard equipment on every 250LR. When not in use, the table and pedestal stow below deck in their own custom cradle. Two floor mounts allow the table to be erected either fore or aft, depending on preference.

TWO BUILT-IN COOLERS

Two insulated, 32-quart coolers hold a day's worth of drinks and drain overboard as the day wanes. The hinged lid with lift ring keeps drinks cold in the cockpit cooler and adds a smooth surface for making sandwiches. The in-bow cooler features a non-skid lid and doubles as an entry step.

WRAP-AROUND SEATING

Much like the concept of surround sound, this unique seating style places everyone in close proximity to the action. There is ample seating for everyone and plenty of storage under the seat cushions. Filler cushions convert standard seating to an oversize sunpad or sleeping berth.

REFRESHMENT CENTER

A 17-gallon freshwater tank supplies the on-deck sink, and a removable 25-quart cooler is anchored out of the way. Oversized drink holders, a starboard countertop, and indirect lighting complete this refreshment center package. Opposite the refreshment center you will find the built-in, insulated 32-quart cockpit cooler.

BOW FILLER CUSHIONS

Filler cushions bridge the port and starboard bow seats to form one huge sunpad. The cushions are made of premium 36-ounce Nautolex vinyl with PreFixx protectant and come standard with three support brackets. The support brackets and cushions store neatly away when not in use.

EXTENDED SWIM PLATFORM

This oversize swim platform alternates as a watersports activity center, or just a place to lounge with your feet in the water! The surface is non-skid. A multi-step, stainless steel boarding ladder is conveniently tucked away when not in use. And, a storage box with hinged lid holds accessories and doubles as a step for ease of cockpit entry.

CUDDY 195c

LOA: 19' 6"

Beam: 91"

Avg Weight (w/ 4.3L): 2,642 lbs

Fuel Capacity: 21 gal (3.0L), 35 gal

Shown with optional stainless upgrade
and liquid metal graphic

A nineteen foot cuddy may not sound all that big, but this cuddy has features that allow it to compete with the "big boys." Consider the oversized cabin entryway with three-panel, bi-fold doors featuring smoked Lexan inserts that create privacy without completely blocking out light. Add a molded fiberglass cabin liner that includes a porta-potti and a V-berth with ample underneath storage and a screened, aluminum deck hatch and you have all the makings of an "overnighter" for two.

195C models feature pop-up cleats, a recessed bow light, a stylish dash, and an integrated swim platform. Other noteworthy standard features include bow-anchor storage, in-floor ice chest, and a hi-power audio system.

Low profile bow rails and a non-skid foredeck lead to the anchor storage compartment with cradle. Or, if weather dictates, you can still access the bow through the forward hatch.

BI-FOLD CABIN ENTRY

BI-FOLD CABIN ENTRY

A three-panel, bi-fold cabin door allows easy access to the cabin. A sturdy stainless steel latch secures the door and smoked Lexan panel inserts provide privacy without completely eliminating light.

FULL INSTRUMENTATION

Monitor all systems at a glance with these easy-to-read, backlit gauges. From a volt-meter to a tachometer with digital hour meter, nothing is left to chance. Rocker switches with indicator lights are within easy reach and a 12-volt accessory plug rounds out this handsome dash.

HI-LO JUMP SEATS

This clever feature allows for a variety of uses within the same interior. Jump seats are quickly converted from a full-width sundeck position (Hi) to a sitting position (Lo). Additionally, they can be removed to allow for easy transom access for fishing.

POP-UP CLEATS

Made of stainless steel, these snag-free cleats are found on the bow and amidships on the 195C. With the flick of a hand, the cleat can be raised to attach a mooring line, or the line can be removed and the cleat lowered for a smooth top-deck appearance—there are no complicated, internal moving parts.

CUDDY 200c

LOA: 20' 3"

Beam: 92"

Avg Weight (w/ 4.3L): 2,827 lbs

Fuel Capacity: 35 gal

The 200CS has all the performance and pizzazz you would expect in a sportboat and yet has the creature comforts to qualify for second-home tax status. The cabin features two facing seats that can be repositioned to extend the V-berth for additional sleeping room. Hidden from view by the V-berth cushions is a molded-in sink with faucet, a single burner butane stove, and a porta-potti. Standard cockpit seating consists of an adjustable bucket seat at the helm, a 4-position back-to-back lounge seat on the port side and two jump seats on either side of the motorbox.

If you are looking for a family boat that will give you the performance of a sportboat, yet with amenities enough for a weekend for two, you owe it to yourself to take a look at the 200C.

IN-FLOOR COOLER

IN-FLOOR COOLER

A 46-quart in-floor cooler is conveniently located between the driver and passenger seats for easy access. It also doubles as a trash receptacle when you are finished with your drinks.

FULL INSTRUMENTATION

Monitor all systems at a glance with these easy-to-read, backlit gauges. From a volt-meter to a tachometer with digital hour meter, nothing is left to chance. Rocker switches with indicator lights are within easy reach and a 12-volt accessory plug rounds out this stylish dash.

TAX DEDUCTION

With its freshwater sink, porta-potti, stove, and sleeping accommodations for two, the 200C has all the equipment necessary to qualify for second home tax deductions.

BOW STEP

This stainless steel swing-out bow step allows for easy access from the cockpit to the bow and then tucks away when it is not in use.

CIRCULAR DECK HATCH

This stylish Bomar aluminum deck hatch (with screen) allows for natural light and ventilation to penetrate the cabin while keeping the bugs out. Access to the bow can be achieved through the deck hatch.

Cuddy 210c

LOA: 21' 2"

Beam: 93"

Avg Weight (w/ 5.0L): 2,850 lbs

Fuel Capacity: 35 gal

Stingray's newest entry into the cuddy market is the 210C. At 21 feet 2 inches, it has all the performance and pizzazz you'd expect in a sportboat and yet has the amenities to qualify for second-home tax status.

The cabin on this mini-cruiser is entered through bi-fold, Lexan doors that open independently of one another. As you enter the cabin, two opposing seats, one portside and one starboard, are cantilevered to provide maximum headroom and can be placed flat to form the V-berth for additional sleeping room. The cabin also sports hide-a-way lids that cover a sink, porti-potti and stove; all of which are hidden from view by the V-berth cushions when not in use.

The "icing on the cake" is a new sundeck design featuring Stingray's unique companion walk-way with a flip-down seat for entry into the cockpit. Riding on an all new, next generation ZP hull, this cuddy is one great performer.

LOW PROFILE FOREDECK

LOW PROFILE FOREDECK

Timeless styling is evident in this day cruiser. The foredeck features low profile stainless steel bow rails that parallel the non-skid surface leading from the walk-thru windshield to the anchor locker. A circular Bomar deck hatch provides for ample cabin light and ventilation, as well as bow access. The navigation light is recessed and a flush mount, pop-up cleat gives this boat a clean, functional look.

STAINLESS HARDWARE PACKAGE

An optional upgrade that offers a stainless steel rub rail along with other stainless components, such as cupholders, steering wheel, vent covers, horn cover, and step pads to complement the stainless steel windshield support braces, fuel fill, ski tow eye, grab rail, cleats, overboard drains, boarding ladder, etc.

COMPANIONWAY FILLER CUSHION

Boarding has never been easier than with this new "walk over" feature. When not in use, a sundeck filler cushion covers the walk way and converts it to a full sun pad for tanning.

COCKPIT ENTRY STEP

This flip-down step is integrated into the bench seat back rest. When not in use, one would hardly know it exists. But, when it comes time for your party to board, just flip the seat down and welcome them aboard.

EXTENDED SWIM PLATFORM

This water sports activity center is built-in—not simply an add-on. It is packed with features from the recessed, 3-step boarding ladder to the oversized non-skid surface, to a stainless steel grab rail for ease of entry. Whether wakeboarding, tubing or just sitting with friends, this platform provides the place to do it all.

CUDDY 220c

LOA: 21' 6"

Beam: 97"

Avg Weight (w/ 5.0L): 3,143 lbs

Fuel Capacity: 38 gal

Shown with optional stainless upgrade

The 220CS was meant for open water. Its deep freeboard coupled with a spacious cabin make it the perfect "big" water boat.

The cabin is constructed using a one-piece molded fiberglass cabin liner complete with integrated storage cutouts, hide-a-way sink, porta-potti, and single-burner, portable butane stove. Opposing port and starboard cabin seats increase available seating capacity to eight. Raising the cabin seats and dropping the lids to the sink, stove, and porta-potti quickly convert this roomy cabin to a full V-berth for overnight accommodations.

Port and starboard windows with screens complement the large, aluminum deck hatch for natural light and ventilation while the four-panel, bi-fold doors with smoked Lexan inserts provide for easy access.

MOTORBOX WITH SUNPAD

ALUMINUM DECK HATCH

MOTORBOX WITH SUNPAD

This model boasts of a large motorbox with sunpad to complement the Hi-Lo jump seat feature. Jump seats are quickly converted from a full width sundeck (Hi) to a sitting position (Lo). A carpeted base protects the motorbox, not to mention complementing the carpeted floor. Two oversized cupholders for passenger convenience complete this motorbox design.

ALUMINUM DECK HATCH

A stylish aluminum deck hatch is screened for protection from intrusive bugs and allows for ample cabin light and ventilation. The hatch is multi-position with the turn of a thumb tensioner—just select the opening desired and tighten to hold in place or "batten down the hatch" with the levers.

FOUR-POSITION LOUNGE SEAT

Made of injected polypropylene cores, these seats convert from back-to-back to a chaise lounge with headrests at either end to a full lay-down position. Let your mood or the number of passengers dictate your preference.

IN-CABIN SEATING

Opposing port and starboard cabin seats add to seating capacity, as well as convert to V-berth accommodations for two.

DEEP FREEBOARD

A cockpit depth of 40 inches at the center makes this one of the deepest in the Stingray line. Its high sides provide added safety and comfort for all members of the family. And, it's not afraid to take on big lakes or coastal waters.

STAND-UP BIMINI TOP

One minute the water is smooth as glass; the next minute wind and rain buffet your boat. No matter what the condition, this stand-up bimini top offers excellent protection from the elements with substantial headroom to boot. Optional colors are available to custom match your boat.

CRUISER 240c

LOA: 23' 6"

Beam: 102"

Avg Weight (w/ 5.0L): 4,605 lbs

Fuel Capacity: 68 gal

Stingray has packed an ample amount of living quarters into a portable package—the 240CS—which makes overnight getaways a boater's dream.

This mid-cabin, trailerable weekender is perfect for a family of four. It has facilities to whip up your favorite dinner and room for all to stretch out for the night. The head doubles as a stand-up shower, sized for grown-ups. The galley consists of a sink, stove, icebox, and storage cabinets tucked into the port side of the cabin. A companion entryway leads from the galley to the mid-cabin with room to sit up or lay down, and the dinette converts to a V-berth forward for the adults in the group.

Put a quick pencil to the total cost of a weekend onboard the 240CS, add in valuable "family time," and it equals one of the best values on the water.

AFT BENCH SEAT

HEAD W/ SHOWER

AFT BENCH SEAT

Features stainless steel armrests, a removable seat bottom cushion with storage and ample room for two adults. As with all interior upholstery components, this seat is constructed from 36-ounce Nautolex vinyl and treated with PreFixx, a stain resistant protectant.

FIBERGLASS HEAD WITH SHOWER

A stand-up, full-sized head complete with sink, handheld shower, and toiletry racks anchors the starboard side of the cabin. The full-length door allows the head to double as a changing room.

ROOMY MID-CABIN

The mid-cabin of the 240CS is surprisingly large. A 60" wide, foam-filled mattress covers the sleeping area. There is ample headroom for sitting with a coaming pad for a backrest. A rear hatch with screen allows for natural light and ventilation. And an adjustable light is available for reading.

V-BERTH AND GALLEY

Drop the dinette table to form the V-berth for two or raise the table to feed a family of four. The table is also great for games when the pace slows or the weather reduces your on-deck activities. The galley itself includes a stainless steel sink, stove, icebox, and stylish cabinetry.

DOUBLE HELM SEAT

Its oversized width allows for the captain and first mate to sit together with additional passengers facing the stern. Lower the seat to its down position and you have a sunpad or small on-deck bed.

REAR-FACING LOUNGE SEAT

A great place to relax. Passengers will be jockeying for position to grab this seat. With a custom storage tray, cupholders, and an armrest, you will not want to give up this popular spot.

Pocket cruiser or cuddy cabin? For most, it is just a matter of semantics. But, whatever you choose to call this boat, we are sure that you will be impressed. Over twenty-five standard features are found in its convenience package—a list of no-charge, desirable items such as magnetic compass, a stand-up bimini top with stainless steel hardware, and an electronic fuel management system. The cabin features a spacious V-berth, a built-in storage cabinet and a porta-potti with pumpout. A bi-fold door with smoked Lexan inserts and a key-entry lock provides privacy for overnighting or when the facilities are in use.

Wrap-around seating converts to an oversized sunpad and built-in steps to the bow make for easy access when docking or anchoring. With a freshwater sink, a built-in cooler (and a removable cooler), transom shower, and more, this boat is one for the design books!

BOW STEPS

CABIN HIGHLIGHTS

INTEGRATED STEPS TO BOW

The bow steps are probably one of the best, but most overlooked, features of the 250CR. These built-in fiberglass steps are an integral part of the deck mold and make access to the bow effortless when docking or anchoring. And, the top step can alternate as an additional seat when you are docked.

CABIN HIGHLIGHTS

A stylish storage cabinet with accessory tray, a Kenwood audio system with two in-cabin speakers, adjustable cabin lighting (port and starboard), a butane stove, and a porta-potti with pumpout transform day trips into extended weekends.

CAVERNOUS V-BERTH

Whether used as a place for the kids to nap or for a couple to overnight, the cabin has room to stretch out and relax. It also serves as an ideal respite from a sudden thunder shower or rain squall.

REFRESHMENT CENTER

A 17-gallon freshwater tank supplies the on-deck sink and a removable 25-quart cooler is anchored out of the way at the base. Cupholders, a starboard countertop, and indirect lighting complete this refreshment center package. Opposite the refreshment center you will find an insulated 32-quart cooler with overboard drain.

FULL SUNPAD

Filler cushions convert standard wrap-around seating to a full sunpad. Or, stow the filler cushions and set up the dinette table with your favorite on-board snacks.

CRUISER 250c

LOA: 25' 0"

Beam: 102"

Avg Weight (w/ 5.0L): 5,025 lbs

Fuel Capacity: 68 gal

The dual-cabin 250CS is the largest, most accommodating boat in our fleet. Yet it is not so large that it's landlocked. With an appropriate tow vehicle, this cruiser can be trailered to endless enjoyable destinations.

The 250CS offers sleeping accommodations for four with two berths—one in the forward bow and another amidships—making it ideal for overnight excursions. It is equally accommodating topside. A cockpit refreshment center features a smooth-top counter with covered sink and faucet, a stainless steel rack to accommodate up to three oversized drinks, built-in fire extinguisher mount and under-counter trash bin and storage compartment. And, our designers came up with a fresh approach to cockpit seating by implementing an aft facing "rumble" seat astern of a double-wide passenger seat.

Like all Stingray models, the 250CS rides on our exclusive performance-enhancing Z-plane hull.

UNIQUE COCKPIT SEATING

STAND-UP HEAD

Shown with optional stainless upgrade

UNIQUE COCKPIT SEATING

This new approach to cockpit seating incorporates an aft-facing "rumble" seat abaft of a double-wide passenger seat. The stern features a three-quarter, rear bench that expands to form a sun pad when filler cushions bridge the gap to the rumble seat. For the driver there's a sturdy, custom-designed, flip-up bolster for stand-up operation when docking or for sitting when cruising.

STAND-UP HEAD

Adjacent to the galley you have the welcome convenience of a fully-enclosed stand-up fiberglass head with mirrored vanity, overhead lighting, generous storage, sink, manual-flush toilet and shower.

MID-CABIN ACCOMODATIONS

Access to the mid-cabin is a breeze thanks to an expanded entryway and sloped overhead. Interior lighting and an opening port provide ample light and cabin ventilation for added comfort.

LUXURIOUS CABIN AND GALLEY

Preparing meals is made easy with this well thought-out and fully equipped galley. It features multiple storage nooks, bottle holders and attractive cabinets along with a solid surface countertop incorporating a sink, surface top stove, overhead microwave, under-counter refrigerator and trash receptacle bin. A convertible dinette table with sit-around lounges provides a cozy atmosphere for family-style dining.

SLIDING ENTRY-WAY DOOR

To provide easy access to the foredeck we molded large steps into the sliding entry-way door and installed a walk-through, tempered safety glass windshield. In addition to the standard stainless steel bow rail wrapping the deck's perimeter, we installed parallel low-profile rails for safe passage to the boat's forepeak, where we feature an anchor locker complete with overboard drain, anchor roller and 6-inch stainless steel cleat for tie-down.

TRANSOM STORAGE

A lockable, twin-hatch storage compartment houses shore-power cables, water hoses, fenders, etc. The top of it even incorporates a couple of drink holders and a sturdy stainless steel grab rail.

SPORTBOAT 220s

LOA: 21' 6"

Beam: 97"

Avg Weight (w/ 5.0L): 3,320 lbs

Fuel Capacity: 38 gal

Feel the need for speed? Stingray's 220SX is your ticket to high performance.

The 220SX has a sleek profile and nimble performance. Riding on Stingray's unique Z-plane hull with its notched transom, this beauty glides over the water at full throttle and is capable of carving figure eights at the spin of the wheel.

Beneath its racy deck lies a cabin with all the comforts of home. Fact is, it can qualify for second-home tax benefits. Standards include a porta-potti, sink, butane stove, and twin cabin seats that convert into V-berth accommodations for two.

The interior is equally appointed with twin sport buckets with flip-up bolsters, a contoured aft bench seat and bolstered sun-deck. A super sport dash houses a compass and a full array of gauges—the favorite of which is the speedo!

PERFORMANCE GRAPHICS

SPORTBOAT

Shown with optional solid color deck & hull and stainless upgrade

PERFORMANCE GRAPHICS

No need to guess the "horses" under the engine cover. The circular, aluminum Bomar hatch features a cubic inch designator and high performance graphics lead to the bow. The topside graphics are a sporty complement to the hull graphic and enhance the "performance look."

SPORT DASH

This premium sport dash includes a directional compass, a full complement of gauges encased with stainless steel bezels, tilt steering, sport wheel, and rocker switches for fingertip operation.

BI-FOLD CABIN DOOR

Constructed of hi-density starboard with smoked Lexan inserts, these locking bi-fold doors lead to the low-profile sportboat cabin. Once inside, you will find port and starboard seating to accommodate two.

SUNDECK LATCH

This new latch mechanism with hand-assist cutout eliminates the use of a striker latch and provides for easy opening and positive retention when closed. Two handle-assist straps and a gas-assist strut allow the most demure passenger access to the engine/storage compartment.

FIBERGLASS CABIN INSERT

A one-piece molded fiberglass insert, complete with integrated storage, hideaway sink, stove, and porta-potti, combines comfort with ease of maintenance, and the opposing port and starboard cabin seats convert to form a V-berth.

SPORTBOAT 230s

LOA: 22' 8"

Beam: 96"

Avg Weight (w/ 6.2L): 3,557 lbs

Fuel Capacity: 57 gal

Throttle up! This is one hot sportboat with an exhilarating ride! The first thing you will notice is the crisp acceleration that propels you on plane in a matter of seconds. Trimmed out at full throttle, only the last few feet of hull make contact with the water as the boat releases to reach maximum speed.

When it comes to maneuvering, the 230SX handles turns with agility. With the drive trimmed partway up, the propeller maintains its bite without the slightest hint of ventilation, giving further testimony to the effectiveness of the Z-plane hull. While performance is paramount, there are a boatload of amenities as well, from a functional helm station with fighter-plane looks, to two sport bucket seats with flip-up bolster, to an ingenious V-berth with hidden sink, stove, and porta-potti.

Colors for this model are unique; i.e., solid color hulls and corresponding decks are available in red, yellow, titanium, and white—it's up to you to match your mood—or your tow vehicle!

ALUMINUM DECK HATCH

ALUMINUM DECK HATCH

A circular, aluminum deck hatch adds sizzle to this performance package, as well as providing for cabin ventilation and natural lighting.

PERFORMANCE GRAPHICS

No matter which graphic you choose, the 230SX will be the envy of the waterway. Graphics not only appear hullside, but topside as well.

SPORT BUCKET SEATS

These contoured seats are made of a high-density polypropylene material and feature a front and rear leaf spring in the seat bottom designed to absorb shock. A two-position (flip-up or flip-down) bolster allows the rider to stand or sit depending on operational preference. Covered with 36-ounce Nautolex vinyl with PreFixx protectant, over a foam backing and moisture barrier, these seats provide unparalleled comfort and ride. The flip-up bolster adds 7" to seat height for maximum visibility.

PASSENGER DASH

The passenger side dash is the perfect complement to the driver's side dash. Its low profile, sculpted look blends with the deck and features a locking glove box, AM/FM/CD with cover and an integrated grab handle.

LOW-PROFILE TINTED WINDSHIELD

What a difference a windshield makes! This low-profile tinted windshield option changes the entire appearance to a true sportboat look. While the top and full canvas options are sacrificed when you select this option, a cockpit cover is standard equipment.

A Electrical System Includes:
25 ft shorepower cable,
battery charger, refrigera-
tor, alcohol/electric stove.

B 8 cylinder motors only.

C Prices shown are addition-
al costs for upgrading stan-
dard equipment at the
time of manufacture.

D Available on MerCruiser
only.

F 8.1 engines are 2 to 3 mph
slower with this option.

- Denotes Not Available.

* Fish & Ski Includes: twin
casting platform with
pedestal seating, tackle
storage, trolling motor
panel w/dual battery box,
livewell.

Prices and specifications are
subject to change. For the
most current and complete
specifications, visit [stingray-
boats.com/options](http://stingray-boats.com/options).

Molded Storage Insert with Weatherproof Speakers and Drink Holder

Cockpit Table with Floor Mount

Contoured Bow Seats and Integrated Bow Cooler

Freshwater Sink, Cooler, Countertop Area (220DR)

Molded Fiberglass Cabin Liner with Sink, Butane Stove, and Porta-Potti

Sport Bucket with Flip-Up Bolster

Under-Seat Storage

Stainless Steel Thru-Hull Exhaust (Option #11 Merc. or #6 Volvo)

Ritchie® Compass (Option #49)

Propellers are an exchange up charge at time of order.

SS Props std. on Bravo 3 and 300HP and larger motors.

^A Weights vary depending on installed options

^{*} All boats that exceed 320hp must have option 11 (SS Thru Hull Exhaust) or option 55 (Captains Call) installed to achieve the maximum speeds shown in the Performance Options chart.

[†] Fuel capacity is 21 gal. with 3.0L, 35 gal. with 4.3L

CAUTION: At wide-open throttle (WOT) the propeller should not cause the engine to operate below the minimum RPM range published by the motor manufacturer. Running your boat at WOT below the recommended minimum RPM can cause serious damage to your motor that is not covered by warranty.

Specifications are subject to change at any time without notice or obligation. To avoid disappointment, please check with your Stingray Dealer for current information.

Performance data comes from factory testing, independent engine manufacturer testing or independent magazine testing. All boat speeds and propellers shown are to be used as guidelines only for general applications as boats and operating conditions will vary. The best propeller for specific boating needs can be determined only by performance testing by your dealer. Results on individual boats may vary depending on many factors, including driver, weather, altitude, load, condition of propeller, lower unit, and boat bottom. Matching of your boat and use conditions to the proper propeller by your dealer will make your boating experience more enjoyable and keep your engine running longer and stronger. Propellers used during testing are shown to be used as a guideline only and are not intended to be an absolute recommendation.

STINGRAY BOATS

625 Railroad Avenue, Hartsville, SC 29550
Phone: 843-383-4507

Visit **StingrayBoats.com** for additional and up-to-date information.

WARRANTY INFORMATION

All Stingray warranties are limited warranties within the meaning of Title 1 of the Federal Trade Commission Improvement Act. A full statement of coverage, terms, and conditions applying to the Stingray warranty has been furnished to all Stingray dealers. In addition, information is supplied with each new boat.

Please read carefully the terms and conditions provided in Stingray's Express Limited Warranty accompanying the sale of your boat. The actual length of warranty coverage for your boat may vary depending on the date of original manufacture and sale date of your boat.

ABOUT THIS BROCHURE

Only a partial list of standard equipment is shown, and some boats are shown with optional accessories. Styling, design, equipment, prices, colors, and construction are subject to change without notice or obligation. To avoid disappointment, please check with your Stingray dealer or visit **StingrayBoats.com** for the most current information at the time of purchase.
