

**STINGRAY**

**2014**

# ABOUT STINGRAY

Based in Hartsville, South Carolina, Stingray occupies over 225,000 square feet of manufacturing facilities and is situated on 46 acres.

Stingray is a privately held, family-owned business, representing one of the longest continual ownerships in the marine industry today! Stingray has been building quality runabouts since 1979 based on some very basic principles: innovation, craftsmanship, and integrity. Because of our “independent” status, Stingray can react to changing market conditions in a much shorter cycle time than the larger corporate entities. This often leads to early recognition of shifts in consumer trends or demographics and thus designing products to meet those needs in a more proactive way.

Stingray leads the industry with many technological firsts. In 1985, Stingray was the first boat company to use CAD-driven CNC routers to produce production parts. In 1993, Stingray introduced the first 5-axis CNC waterjet designed to trim fiberglass parts, followed in 1996 by a CNC flatbed waterjet for cutting flat goods. And, in 1998, Stingray was the first to use environmentally friendly, low-VOC gelcoats and resins. Stingray continually seeks ways to push the technology boundaries.

FINANCIALLY SOLID

With Dun and Bradstreet's highest credit rating, Stingray is one of the most financially solid manufacturers in the industry. Stingray dealers and customers can depend on a strong partner to provide product innovation and customer support for years to come. We are proud of our debt-free status—a claim that few builders can make!

VALUE AND QUALITY ORIENTED

As one of the founding members of the American Boatbuilders Association (ABAboats.com), Stingray Boat Company is in excellent company with Chaparral, Cobalt, Formula, Godfrey, Grady-White, Monterey, Nautique, Pursuit, Regal, Rinker, and Tiara Yachts. This is another assurance that you are receiving the highest quality materials available at the best possible price. ABA members pool their expertise and resources to purchase only the best products and services available.

TECHNOLOGY DRIVEN

For the past three decades, Stingray has pioneered many of the advances of technology in the boat building industry. Equipment and tools that were not available just a few years ago are now the mainstays that enable Stingray to achieve unparalleled precision and efficiency i.e., computer-aided designs, multi-axis 3-D milling machines, water jet cutting machines, and CNC routers, to mention a few.

**COMPUTER AIDED DESIGN AND MANUFACTURING** Every Stingray begins as a 3-dimensional computer model. We “build” the boat on-screen and carefully scrutinize each component for size and fit, making all of the necessary adjustments before we ever commit the design to fiberglass. We even use a virtual human to check for legroom and headroom—and to be sure that all of the controls are located comfortably within reach. The information from this 3-D model is sent to the next step in the process: 3-D milling.

**MULTI-AXIS 3-D MILLING MACHINE** With information available from a 3-D computer model, milling machines can produce a full size model in a matter of hours—a task that would take weeks otherwise. With unequalled precision, the running surface of the hull is cut to the exact specifications. Our master craftsmen then provide the mirror finish that is a hallmark of Stingray quality.

**ROBOTIC LAMINATION FACILITY** Visitors are always impressed by our plant’s cleanliness and unique manufacturing systems. In our lamination building, a custom-designed overhead rail system was developed just for Stingray. Parts under construction are moved from one bay to the next for layup and curing. This system also keeps track of our in-process fiberglass parts while optimizing mold usage and improving productivity. Process automation also increases worker safety, helps maximize efficiency, and improves quality.

**WATERJET CUTTING MACHINES** Many parts on a Stingray are cut using one of our high-pressure water jet machines. A stream of water no thicker than a human hair slices quickly

and neatly through a variety of materials much easier than could be done by hand. Materials such as carpet, foam, vinyl, canvas, rubber, and fiberglass are quickly transformed into precision quality parts.

**CNC ROUTERS** Computerized numeric controlled routers are used to cut various sheet goods into high quality parts. The computer allows us to “nest” a group of parts efficiently to minimize waste. Because the process is computer controlled, each part is dimensionally identical from one run to the next and can be finished much faster and more inexpensively than those produced by hand.

CE CERTIFICATION

Stingray competes on a global scale and has dealerships located throughout the world from the Middle East throughout Europe, into Asia and Australia. Stingray boats destined for these countries must meet stringent standards prescribed by Consultants Europe (CE) and bear the CE mark.

NMMA / USCG CERTIFICATION

All Stingray boats meet or exceed National Marine Manufacturer Association (NMMA) and US Coast Guard (USCG) certification requirements for safety, such as horsepower, load capacity, steering, fuel systems, compartment ventilation, navigation lighting, and backfire flame control.

Z-PLANE HULL

The Stingray Z-plane hull is unparalleled in the industry. It is up to 30% more efficient than other boat hulls. Developed on a CAD (Computer Aided Design) system, the hull design is unlike competitors' add-on lifting strakes. Stingray Z-planes act as horizontal planing faces when submerged; when very near the water's surface, the outside edge acts as a spray release, passing through the water with no bubbles or vortices. The smooth flow of water allows the propeller better bite during straight line speed and hard cornering maneuvers. Extending beneath the swim platform, the design allows for quicker planing and three-point contact with the water at faster speeds. This combination results in a quicker hole shot, industry leading top-end, and smooth handling at all speeds.

# WARRANTY

Every Stingray boat is backed by a comprehensive warranty for peace of mind.

## FIVE-YEAR LIMITED TRANSFERABLE STRUCTURAL HULL WARRANTY

STINGRAY Boat Co. (hereafter "STINGRAY") warrants the HULL against structural defects in material and workmanship for a period of five (5) years from the date of purchase or six (6) years from the date of manufacture, whichever period elapses first. The warranty provided in this section is to the original retail owner only and applies only if the boat is purchased from an authorized STINGRAY Dealer. During the warranty period described above, STINGRAY will repair (at the factory) or replace, at its option, the fiberglass HULL at the factory if it is determined, in Stingray's discretion, to be structurally defective in material or workmanship. For purposes of this warranty, the HULL is defined as the part of the boat in contact with the water when at rest. The warranty provided in this section is subject to all limitations and conditions contained herein. The remaining term of this HULL Warranty, if any, may be transferred to the second owner if, within 60 days of purchase, the new owner registers the transfer with STINGRAY and pays the established warranty transfer fee. Contact STINGRAY Customer Service at [stingrayboats.com/transfer](http://stingrayboats.com/transfer) for further details on transferability.

## THREE-YEAR LIMITED OSMOTIC HULL BLISTER WARRANTY

STINGRAY warrants against hull blistering caused by osmosis that is discovered and reported to STINGRAY during the first 3 years of ownership (subject to the prorated schedule below). The warranty provided in this section applies to the original retail owner only and is VOID if the original factory gelcoat surface has been altered by excessive sanding, scraping, sandblasting, or accident repair. A marine barrier coating with proper surface preparation is required if the boat is bottom painted or if the boat is left in fresh or salt water for more than 60 days in any 90 day period. In the event of osmotic blistering, STINGRAY will, at its option, repair or cause to be repaired any hull damage and apply a layer of marine barrier coating to the affected surface area(s). Osmotic hull blisters are defined as those blisters, larger than one-eighth inch in diameter and with a depth greater than one-sixteenth inch, which occur on the hull below the waterline. Repairs will be performed (at STINGRAY'S discretion) by the selling dealer, a designated service center, or the STINGRAY factory. The following prorated schedule of parts and labor will be covered by STINGRAY: Blistering discovered and reported to STINGRAY less than one (1) year from date of purchase - 100%; between one (1) and two (2) years from date of purchase - 66%; between two (2) and three (3) years from date of purchase - 33%. All osmotic hull repairs must be pre-approved by STINGRAY prior to any work being performed. Transportation cost is the boat owner's responsibility. Reimbursement shall be limited to one repair, not to exceed eighty US dollars (\$80 USD) per foot of hull length resting below the waterline prior to prorating.

## ONE-YEAR LIMITED GENERAL WARRANTY

STINGRAY boats are warranted to the original owner to be free of defects in materials or workmanship for a period of one (1) year from the date of purchase (not to exceed two (2) years from date of manufacture) subject to all limitations and conditions contained herein.

## WARRANTY INFORMATION

All Stingray warranties are limited warranties within the meaning of Title 1 of the Federal Trade Commission Improvement Act. A full statement of coverage, terms, and conditions applying to the Stingray warranty has been furnished to all Stingray dealers. In addition, information is supplied with each new boat.

Please read carefully the terms and conditions provided in Stingray's Express Limited Warranty accompanying the sale of your boat. The actual length of warranty coverage for your boat may vary depending on the date of original manufacture and sale date of your boat.

# ENVIRONMENTALLY RESPONSIBLE

Being a leader in technology is more than just a philosophy—it's a commitment designed to help ensure the preservation of our natural resources for generations to come. At Stingray, fuel efficiency, waste reduction, recycling, and reduced stack emissions are not just buzzwords—they are measured goals of each employee. Our commitment goes beyond that which is mandated or regulated—it is an internal philosophy to do our part to protect the environment for generations to come. Consider a few of the things that we are doing to protect our planet:

**USE OF FOUR-CYCLE ENGINES** Stingray uses only three-star rated, four-cycle engines, which are the cleanest and most fuel efficient available for marine use. Better fuel efficiency translates into less fuel consumption. Three-star engines can be four to ten times cleaner than two-cycle outboards, which means less pollution to our environment.

**OZONE-FRIENDLY FLotation FOAM** Stingray uses non-ozone depleting flotation foam by BASF. It is free of chlorofluorocarbons—gases that are depleting the earth's ozone layer. Ask about the use of zero-ozone depleting (zone 3) foam when considering boat brands.

**FUEL EFFICIENCY** The performance and efficiency of our proven Z-plane hull, documented by third party reports, is unmatched. Better fuel efficiency translates into less fuel consumption, but more importantly, it means less carbon dioxide emissions.

**LOW VOC GELCOATS AND RESINS** Stingray was the first boat manufacturer to convert to the use of low styrene laminating resins and gelcoats. The combination of these low VOC materials coupled with the latest in low pressure, high temperature spray equipment has reduced Stingray's VOC stack emissions by over 55%.

**2-INCH FUEL FILLS** Stingray is one of the first manufacturers in its class to convert all models to two-inch fuel fills—the same found on large cruisers and motoryachts. This helps avoid refueling spills normally associated with small-diameter fuel fills.

**WASTE REDUCTION/RECYCLING** Stingray has a recycling program for most waste materials including, but not limited to, cardboard, composites, aluminum, pallets, and metal drums. In cardboard alone, Stingray recycles over 163,000 pounds per year.

**COMMITTED** We want Stingray owners not only to have fun on the water, but also to know that they are helping to protect the environment at the same time.

SPORT BOAT

# 180RX

## BOATING MADE EASY

In the heavily populated 19' market, the 191RX has a larger list of amenities than our competitors' similar-sized models, is more fuel efficient, and boasts the superior craftsmanship expected from Stingray. Oh, and did we mention that it's powered by an outboard! When boating becomes both easy and affordable, everybody wins...even your wallet!

## DECISIONS, DECISIONS

The 198LE and 198LF are more than just siblings in the Stingray family...they're practically twins. The 198LE has the necessities for a fun filled day on the water, with plenty of room to spare. Its hyperactive counterpart, the 198LF has been tailored to please thrill seekers and hook hangers alike. Now for the hard part, WHICH ONE DO YOU CHOOSE?

### KEY FEATURES

- ❑ 15" side-entry walkway
- ❑ indirect LED cockpit lighting
- ❑ backlit instruments with circuit breakers
- ❑ fiberglass cockpit floor liner
- ❑ premium desert and white vinyl
- ❑ stainless steel multi-step transom ladder
- ❑ Bluetooth compatible Jensen audio system
- ❑ 32 qt. and 22 qt. coolers / draining storage boxes
- ❑ molded consoles with storage cabinets ❖
- ❑ auto / manual 1100 gph bilge pump
- ❑ power trim and tilt with indicator
- ❑ power steering (engine driven)

### PUTS THE JOY BACK IN JOYRIDE

The 225LR offers the sleek profile and superior performance of a high-power sport boat with the roomy cockpit space and abundance of creature comforts found in wide-body deck boats. From the fully integrated swim platform to the removable cocktail table, this boat has everything you need to make the most of your time on the water. Compare the 225LR Sport Boat to other models in its class to see what makes the Stingray difference.

#### KEY FEATURES

- ❑ wrap-around seating, step-thru entryway

### TAKE ME FOR A RIDE!

This boat screams speed, even while sitting quietly at the dock. When you pull the throttle down, the 225SX pops on place in seconds. Trimmed out at full throttle, only the last few feet of hull make contact with the water as it releases to reach max speed. The hull design ensures that it handles turns with agility. Simply put, this baby corners like its on rails!

#### KEY FEATURES

- ❑ indirect LED cockpit lighting
  - ❑ fiberglass cockpit floor liner
  - ❑ premium desert and white vinyl
  - ❑ auto / manual 1100 gph bilge pump

## THREE OF A KIND

The 194L series includes three separate models, each geared toward a different type of boater. The 194LE is for the no-frills, no-fuss get-it-done boaters. The 194LF Fish & Ski will thrill the family's fishing and watersports enthusiasts. Last, but certainly not least, the 194LX is packed full of features typically seen in much larger runabouts. With three 19-foot outboards to choose from, we're sure you'll be able to choose the one that's right for you.

### KEY FEATURES

- ❑ 15" side entry walkway
  - ❑ huge storage space beneath the sundeck
  - ❑ indirect LED interior lighting
  - ❑ fiberglass cockpit floor liner
  - ❑ premium desert and white vinyl
- ❑ auto / manual 1100 gph bilge pump

## THE FUN IS IN THE BOAT!

This boat is incredibly fun to drive! After you've taken it out on the water, we're pretty sure you will return with a smile on your face. The 198LX provides the responsive handling Stingray is known for and as one of our Sport Decks, it boasts extra width in both the cockpit and bow areas. Here's something else—our 19' models outperform the competition with less power and manage to get better fuel mileage when comparing like power. FAST, ROOMY, & ECONOMICAL...all in the same boat!

### KEY FEATURES

- ❑ 15" side-entry walkway
  - ❑ indirect LED cockpit lighting

DEADRISE ANGLE
20 degrees

## THE WATER IS WAITING!

At twenty feet and five inches, the outboard powered sibling of the 208LR retains all the key features of its relative, but doubles the storage capacity by removing the engine from beneath the sundeck. Multi-step boarding ladders fore and aft provide convenient entry from the water or beach and the full fiberglass floor liner offers comfortable traction as well as stress-free cleanup via the inlaid self-bailing cockpit drains. The 204LR is the perfect sized bowrider for a fun-filled weekend on the water.

### KEY FEATURES

- ❑ 15" side-entry walkway
  - ❑ indirect LED interior lighting
  - ❑ fiberglass cockpit floor liner
  - ❑ premium desert and white vinyl

### FAMILY FRIENDLY BOATING

With tons of dedicated storage space, there is never a shortage of cockpit space in the 208LR. The added cockpit width lends itself to the side-entry walkway without sacrificing valuable bench seat or sundeck space. A pair of telescoping ladders, one in the bow and one on the transom swim platform, make for convenient boarding from the water or your favorite beach. Good luck getting out of the water once you're behind the wheel.

FEATURE PACKED AND WAITING FOR YOU!

The 214LR boasts one of the most impressive standard feature lists in the Stingray line-up with the added bonus of versatile outboard propulsion. A freshwater sink, removable cooler, pressurized bow and transom showers, as well as a removable cocktail table are all standard features on the 214LR. Not to mention the oversize head compartment with plenty of room for both kids and adults. We invite you to compare the features of our model to others on the market; we think you'll be pleased.

## CAN'T WAIT FOR THE WEEKEND!

Like our other sport deck models, the 215LR's wide body offers an easy-entry walkway, plus more cockpit space than traditional boats of the same length. Beneath the top bow top is an easy slide-out ladder and an anchor locker and fender storage area. Under the bottom step is a large cooler with overboard drain. With a truly functional head compartment, it's convenient to spend the day, or night, out on the water. The features on this boat are abundant!

### KEY FEATURES

### THIS BOAT HAS IT ALL!

The largest outboard Sport Deck in the line-up, the 234LR doesn't waste an inch of space aboard its massive frame. The roomy cockpit is home to a complete refreshment center and a fully functioning head compartment that has enough space for an adult to fit comfortably inside with room to spare. With an outboard instead of a sterndrive, the compartment beneath the sundeck is opened up to be entirely usable storage space. You'll be able to bring all your water toys and gear!

#### KEY FEATURES

## ONE FOR THE WHOLE FAMILY TO ENJOY

The extremely roomy interior of the 235LR allows passengers to ride comfortably even with the boat at full capacity. The large transom swim platform is perfect for strapping into a wakeboard or skis, and features a hideaway stainless steel boarding ladder to make re-entry just as easy. A built-in cockpit refreshment center, oversize head compartment, and fully integrated fiberglass floor liner are just a few of the impressive standard appointments. To check out everything this boat has to offer, contact your closest Stingray dealer.

## LET'S GO BOATING!

Bring the kids, bring the friends, and bring the tubes! In true deck boat style, this boat boasts a spacious open floor plan that provides lots of room for all aboard. Leaving no space unused, storage compartments can be found throughout for all your water toys and necessities. The onboard changing compartment, a rarity on a boat this size, can be upgraded to a head compartment with the addition of the optional porta potti. This is the boat you've been waiting for!

## OVERNIGHT? NO PROBLEM!

This may be our entry-level sport deck cuddy, but there is nothing small about this boat. Its extra wide stance makes room for a 15" side entryway to provide quick and easy boarding, while giving up little sundeck area. The wide body design continues in the cabin, where two adults can easily stretch out for a nap. This boat is a performer in every way! It will be a challenge to find another boat in its size range to compete with it.

### KEY FEATURES

## READY FOR A WEEKEND AWAY!

Want all of the features of a bigger boat without actually having a bigger boat? Look no further. The 215CR packs in ALL the same features of our 235CR, with the same beam and two feet less to trailer. Before you get too worried, our designers did an impressive job of conserving space in non-essential areas to bring you this right-sized cuddy. The 215CR also could qualify you for a second home tax deduction. How can you argue with that?

### KEY FEATURES

- ❑ 15" side-entry walkway
  - ❑ oversize cup holders
  - ❑ fiberglass cockpit floor liner
  - ❑ premium desert and white vinyl
  - ❑ cockpit table for entertaining

## SPORT BOAT INSPIRED CUDDY

The 225CR has an abundance of space all over, not just the roomy cockpit, but a spacious cuddy cabin as well. The ample freeboard allows this boat to feel a lot more secure for riders, even in “big” water. Even with the added weight of the cabin, atop Stingray’s performance proven Z-Plane hull, the 225CR jumps out of the water and planes off with ease, allowing for greater top speeds and a freer riding hull. Come see what all the fuss is about; check out this sport boat inspired cuddy today.

### KEY FEATURES

- oversized cup holders
  - indirect LED cockpit lighting
  - fiberglass cockpit floor liner

**WARRANTY INFORMATION**  
All Stingray warranties are limited warranties within the meaning of Title 1 of the Federal Trade Commission Improvement Act. A full statement of coverage, terms, and conditions applying to the Stingray warranty has been furnished to all Stingray dealers. In addition, information is supplied with each new boat. Please read carefully the terms and conditions provided in Stingray's Express Limited Warranty accompanying the sale of your boat. The actual length of warranty coverage for your boat may vary depending on the date of original manufacture and sale date of your boat.

**ABOUT THIS BROCHURE**  
Only a partial list of standard equipment is shown; some boats are shown with optional accessories. Styling, design, equipment, prices, colors, and construction are subject to change without notice or obligation. To avoid disappointment, please check with your Stingray dealer or visit [StingrayBoats.com](http://StingrayBoats.com) for current information at the time of purchase.
